

WIRED / WIRELESS CLOCK SYSTEMS

Keeping your facility
running **effortlessly,**
on-time and **in-sync.**

Dukane® clock systems deliver **accurate,**
reliable, flexible, user-friendly and **cost-**
effective timekeeping and communication.

Accurate

Relay precise NTP or GPS time-code signals throughout a wired or wireless network via the central Master Clock.

Reliable

Employing a wireless cascading network enables each clock to repeat the signal to other clocks in the system allowing for continuous self-correction and consistent timekeeping throughout the entire facility.

Flexible

Dukane Master Clocks easily interface to paging and intercom systems such as the Dukane CH1000(LT) and legacy Dukane StarCall and MCS950 communication systems for tone generation and audible signaling of bell schedules.

They also conform to the open communications standard adopted by the ZigBee Alliance of manufacturers, giving them compatibility with a wide range of wireless automation platforms available today and in the future.

Choose a wired system for new installations, a wireless system for retrofit installations or a combination of both for complete flexibility.

A wide selection of analog and digital clocks are available with a range of mounting and installation options.

Power digital clocks via plug-in transformer or centralized power supply. Power analog clocks via plug-in transformer, centralized power supply and/or with batteries for total wireless flexibility.

User-Friendly

Dukane clocks are easy to configure thanks to Dukane's exclusive browser-based Master Clock setup. Simply login to the Master Clock for intuitive on-screen configuration.

Easily operate digital clock count-up/count-down timers and messages with a simple wall button.

Cost-Effective

The wireless cascading network reduces system setup and installation costs, thanks to the relatively low signal strength that is necessary for it to function efficiently. This eliminates the expense and time required to obtain an FCC license, install a radio antenna or run wires.
