Teaching in the 21st Century Joanne Pauley,1995 Among the issues facing teachers as the 21st century approaches are the prevalence of violence growing racial and socioeconomic divisions in society and lack of parental involvement Activities gathered from articles in educational journals are suggested to help children voice their experiences thoughts and concerns about violence Some of these activities are inviting a police representative to visit the classroom having children become aware of violence on a favorite television program and then rewriting the show without violence and helping children feel safe by assisting them in writing the names of people and places to which they can go when feeling scared Teachers must be aware of not passing on cultural stereotypes while elementary school children are not able to conceptualize socioeconomic differences in terms of profession and status in the current consumer oriented world the advantages of wealth and disadvantages of poverty soon become evident to them Also teachers should learn as much as possible about the dynamics of their communities and recognize the messages that children are absorbing in their daily experience Suggestions for promoting parental involvement include recruiting a volunteer to become a liaison between teacher and parents showing respect for parents by treating them as co workers rather than as free help asking for parents input and thanking them for their participation ND **Back from the Land** Eleanor Agnew,2004-07-22 Recounts the back to the land experiences of the idealists of the 1970s whose attempts to find a simpler life often led to disillusion and an eventual return to a middle class lifestyle

**Poetic Priesthood in the Seventeenth Century** Tessie Prakas,2022-07-28 Poetic Priesthood reads seventeenth century devotional verse as staging a surprising competition between poetry and the established church The work of John Donne George Herbert Richard Crashaw John Milton and Thomas Traherne suggests that the demands of faith are better understood by poets than by priests even while four of these authors were also ordained While recent scholarship has tended to emphasize the shaping influence of the liturgy on the poetry of this period this book argues that verse instead presents readers with a mode of articulating piety that relies on formal experimentation and that varies from the forms of the church rather than straightforwardly reproducing them In crafting this poetic aid to devotion these authors practiced an

alternative and even more ample form of ministry than in their ecclesiastical activities In the wake of the Reformation the liturgy of the English church centered on rituals of communal prayer and praise but the poetry considered in this study suggests that such rituals in fact risk distracting worshippers from the pleasures and challenges of navigating an individual relationship with God Yet these poets do not make this suggestion by rejecting communal rituals outright Their verse invokes ecclesiastical practice as a basis for formal innovation that suggests how intimacy with the divine might look feel and sound connecting humans with their God more precisely and more individually than the liturgy can As they shift between explicit comment on the liturgy and more subtle departures from it in the interplay of verse form and denotation these authors claim the work of priesthood for poetry
