Collection of English Almanacs for the Years 1702-1835 ,1762 **Focus On: 100 Most Popular American Tenors** Wikipedia contributors, Communitarian Foreign Policy Nikolas K. Gvosdev,2017-07-05 This volume establishes Amitai Etzioni s communitarian approach to international relations as a distinct school of American foreign policy thought Nikolas K Gvosdev systematically evaluates Etzioni s ideas tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East and considering their strengths and weaknesses Etzioni agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required However he argues against the imposition of Western policies on the rest of the world which he sees as a recipe for conflict which the United States cannot afford He warns against the post Cold War triumphalism arguing that it undercuts efforts to find necessary common ground with both Russia and China An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats **New Media Futures** Donna Cox, Ellen Sandor, Janine Fron,2018-05-30 Trailblazing women working in digital arts media and education established the Midwest as an international center for the artistic and digital revolution in the 1980s and beyond Foundational events at the University of Illinois and the School of the Art Institute of Chicago created an authentic community driven atmosphere of creative expression innovation and interdisciplinary collaboration that crossed gender lines and introduced artistically informed approaches to advanced research Interweaving historical research with interviews and full color illustrations New Media Futures captures the spirit and contributions of twenty two women working within emergent media as diverse as digital games virtual reality medicine supercomputing visualization and browser based art The editors and contributors give voice as creators integral to the development of these new media and place their works at the forefront of social change and artistic inquiry What emerges is the dramatic story of how these Midwestern explorations in the digital arts produced a web of fascinating relationships These fruitful collaborations helped usher in the digital age that propelled social media Contributors Carolina Cruz Niera Colleen Bushell Nan Goggin Mary Rasmussen Dana Plepys Maxine Brown Martyl Langsdorf Joan Truckenbrod Barbara Sykes Abina Manning Annette Barbier Margaret Dolinsky Tiffany Holmes Claudia Hart Brenda

Ukraine in the Crossfire Chris Kaspar de Ploeg, 2017-04-05 Ukraine is embroiled in a bloody civil war Both sides stand accused of collaborating with fascists of committing war crimes of serving foreign interests This proxy war between Russia and the West was accompanied by a fierce information war This book separates fact from fiction with extensive and reliable documentation While remaining critical of Russia and the Donbass rebellion De Ploeg demonstrates that many of the recent disasters can be traced to Ukrainian ultranationalists pro western political elites and their European and North American backers Ukraine in the Crossfire tackles the importance of ultranationalist violence during and after the EuroMaidan movement and documents how many of these groups are heirs to former nazi collaborators It shows how the Ukrainian state has seized on the ultranationalist war rhetoric to serve its own agenda clamping down on civil liberties on a scale unprecedented since Ukrainian independence De Ploeg argues that Kiev itself has been the biggest obstacle to peace in Donbass with multiple leaks suggesting that US officials are pushing for a pro war line in Ukraine With the nation's eyes turned towards Russia the EU and IMF have successfully pressured Ukraine into adopting far reaching austerity programs while oligarchic looting of state assets and massive tax avoidance facilitated by western states continue unabated De Ploeg documents the local roots of the Donbass rebellion the overwhelming popularity of Crimea's secession and shows that support for Ukraine's pro western turn remains far from unanimous with large swathes of Ukraine's Russophone population opting out of the political process Nevertheless De Ploeg argues the pro Western and pro Russian camps are often similar neoliberal authoritarian nationalist and heavily dependent on foreign support In a wider exploration of Russo Western relations he examines similarities between the contemporary Russian state and its NATO counterparts showing how the two power blocs have collaborated in some of their worst violent excesses A far cry from civilizational or ideological clashes De Ploeg argues that the current tensions flow from NATO's military dominance and aggressive posture both globally and within eastern Europe where Russia seeks to preserve the status quo Packed with shocking facts deftly moving from the local to the international from the historical to the recent De Ploeg connects the dots
