Google It Newton Lee, 2016-10-23 From Google search to self driving cars to human longevity is Alphabet creating a neoteric Garden of Eden or Bentham's Panopticon Will King Solomon's challenge supersede the Turing test for artificial intelligence Can transhumanism mitigate existential threats to humankind These are some of the overarching questions in this book which explores the

impact of information awareness on humanity starting from the Book of Genesis to the Royal Library of Alexandria in the 3rd century BC to the modern day of Google Search IBM Watson and Wolfram Alpha The book also covers Search Engine Optimization Google AdWords Google Maps Google Local Search and what every business leader must know about digital transformation Search is curiosity and that will never be done said Google's first female engineer and Yahoo's sixth CEO Marissa Mayer The truth is out there we just need to know how to Google it

Who Rules the World? Noam Chomsky, 2016-05-10 A New York Times Bestseller The world's leading intellectual offers a probing examination of the waning American Century the nature of U.S. policies post 9/11 and the perils of valuing power above democracy and human rights In an incisive thorough analysis of the current international situation Noam Chomsky argues that the United States through its military first policies and its unstinting devotion to maintaining a world spanning empire is both risking catastrophe and wrecking the global commons Drawing on a wide range of examples from the expanding drone assassination program to the threat of nuclear warfare as well as the flashpoints of Iraq Iran Afghanistan and Israel Palestine he offers unexpected and nuanced insights into the workings of imperial power on our increasingly chaotic planet In the process Chomsky provides a brilliant anatomy of just how U.S. elites have grown ever more insulated from any democratic constraints on their power While the broader population is lulled into apathy diverted to consumerism or hatred of the vulnerable the corporations and the rich have increasingly been allowed to do as they please Fierce unsparing and meticulously documented Who Rules the World delivers the indispensable understanding of the central conflicts and dangers of our time that we have come to expect from Chomsky

Cybersecurity Program Development for Business Chris Moschovitis, 2018-05-08 This is the book executives have been waiting for It is clear With deep expertise but in nontechnical language it describes what cybersecurity risks are and the decisions executives need to make to address them It is crisp Quick and to the point it doesn't waste words and won't waste your time It is candid There is no sure cybersecurity defense and Chris Moschovitis doesn't pretend there is instead he tells you how to understand your company's risk and make smart business decisions about what you can mitigate and what you cannot It is also in all likelihood the only book ever written or ever to be written about cybersecurity defense that is fun to read Thomas A Stewart Executive Director National Center for the Middle Market and Co Author of Woo Wow and Win Service Design Strategy and the Art of Customer Delight Get answers to all your cybersecurity questions In 2016 we reached a tipping point a moment where the global and local implications of cybersecurity became undeniable Despite the seriousness of the topic the term cybersecurity still exasperates many people They feel terrorized and overwhelmed The majority of business people have very little understanding of cybersecurity how to manage it and what's really at risk This essential guide with its dozens of examples and case studies breaks down every element of the development and management of a cybersecurity program for the executive From understanding the need to core risk management principles to threats tools roles and responsibilities this book walks the reader through each step of developing

and implementing a cybersecurity program Read cover to cover it s a thorough overview but it can also function as a useful reference book as individual questions and difficulties arise Unlike other cybersecurity books the text is not bogged down with industry jargon Speaks specifically to the executive who is not familiar with the development or implementation of cybersecurity programs Shows you how to make pragmatic rational and informed decisions for your organization Written by a top flight technologist with decades of experience and a track record of success If you re a business manager or executive who needs to make sense of cybersecurity this book demystifies it for you Critical Leadership Theory Jennifer L.S. Chandler,Robert E. Kirsch,2018-09-26 This book contributes five novel tenets for building a critical theory of leadership studies Drawing from transdisciplinary insights these tenets help shape the emerging field of inquiry They also facilitate the examination of normative social processes that reinscribe hegemonic power relations because much of what is accomplished in current leadership scholarship teaching and practice reinforces these power relations The book begins by contrasting critical theory with positivist approaches to analyzing social phenomena and what follows is an exploration of four broad disciplines using sub components of leadership as an investigatory lens The resulting five tenets are presented and discussed so that they may be picked up and used by scholars contributing to the developing field of critical leadership studies Iron Maiden - Updated Edition Neil Daniels,2016-10 This is the updated edition of Iron Maiden complete with up to date information and photos of the legendary English heavy metal band **China and the Future of Globalization** Grzegorz W. Kolodko,2020-01-23 An FT SUMMER READ 2020 The forces of globalization have transformed the world economically but in the West politics is becoming increasingly fractured as living standards stagnate for all but the very wealthy As a result alienation and nationalism are on the rise China in the meantime has become the most powerful economy in the world from the same forces of globalization which have imprisoned the west Here Grzegorz W Kolodko parses the economic system in China and brings his uniquely clear and far sighted analysis to bear on the global economy Through a qualitative and extensive quantitative economic analysis of the global economy and it s tilt towards Asia Kolodko offers prescriptions on how the west can learn from China s approach and make globalization work for citizens once more An essential book for scholars and students of political economy from one of the West s most authoritative scholars and practitioners Translated by Joanna Luczak **American Cults** Jim Willis,2023-03-07 America has spawned hundreds of cults Charismatic leaders periodically burst into the news for the most awful of reasons We are awash with stories of brainwashed members struggles to leave Meet the messianic leaders see the indoctrination and manipulation look at their beliefs and read the stories of some of America s most notorious eccentric and unusual cults From false religions and offshoots of traditional religions to political financial sexual and hate groups American Cults Cabals Corruption and Charismatic Leaders looks at 40 groups and leaders including their histories deceptions manipulations and twisted ideologies Some rely on systems of obedience submission and dependency More than a few have mystifying beliefs Others are dark and murderous You ll encounter curious bizarre and sometimes

Communitarian Foreign Policy Nikolas K. Gvosdev,2017-07-05 This volume establishes Amitai Etzioni s communitarian approach to international relations as a distinct school of American foreign policy thought Nikolas K Gvosdev systematically evaluates Etzioni s ideas tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East and considering their strengths and weaknesses Etzioni agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required However he argues against the imposition of Western policies on the rest of the world which he sees as a recipe for conflict which the United States cannot afford He warns against the post Cold War triumphalism arguing that it undercuts efforts to find necessary common ground with both Russia and China An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats
