A-Z Guide to Modern Social and Political Theorists Professor Stuart Sim, Noel Parker, 2014-06-03. The A-Z Guide to Modern Social and Political Theories is a companion volume to the already published A-Z Guide to Modern Literary and Cultural Theorists. It ranges widely through the social sciences and related areas to identify thinkers who have had a major impact on the development of modern social and political theory and given clear, accessible summaries of their work. While the accent is on the later twentieth century, several up-and-coming theorists are included to ensure a contemporary edge to the volume. Classic names in the field from the earlier twentieth century are not neglected, and the collection also delves back into the nineteenth century for such founding figures of the social sciences as Marx and Comte. The volume is therefore both up-to-date and mindful of the sources of modern debates.

Uncivil Society Stephen Kotkin, 2010-10-12. Twenty years ago the Berlin Wall fell. In one of modern history's most miraculous occurrences, communism imploded, and not with a bang but with a whimper. Now two of the foremost scholars of East European and Soviet affairs, Stephen Kotkin and Jan T. Gross, drawing upon two decades of reflection, revisit this crash. In a crisp, concise, unsentimental narrative, they employ three case studies: East Germany, Romania, and Poland, to illuminate what led Communist regimes to surrender or to be swept away in political bank runs. This is less a story of dissidents, so-called civil society, than of the bankruptcy of a ruling class, communism's establishment, or uncivil society. The Communists borrowed from the West like drunken sailors to buy mass consumer goods; then they were unable to pay back the hard currency debts and so borrowed even more. In Eastern Europe, communism came to resemble a Ponzi scheme, one whose implosion carries enduring lessons. From East Germany's pseudotechnocracy to Romania's megalomaniacal dystopia, from Communist Poland's cult of Mary to the Kremlin's surprise restraint, Kotkin and Gross pull back the curtain on the fraud and decadence that cashed in the would-be alternative to the market and democracy, an outcome that opened up to a deeper global integration that has proved
