 professionals who are looking for a proven way to increase cultural appreciation and awareness New applications of the  
 ABCs model of Cultural Understanding and Communication are presented and discussed in this new volume based on studies  
 done in the United States and Canada and Europe In this ground breaking project the authors describe how the ABCs model  
 complicated and challenged and changed the cultural perceptions of those who participated in it even those who were  
 initially highly resistant to such possibilities At the heart of the project is the exchange of narratives life stories that give  
 insight into the cultural worlds of selves and others In addition to the narratives other instruments including the  
 Transcultural Competence Scale TCC provide further evidence of the positive impact of the ABCs on participants receptivity  
 toward cultural differences In the TRANSABCs project researchers from both sides of the Atlantic invited teacher candidates  
 students who will become workplace and other professionals to write an autobiography A of themselves from various cultural  
 perspectives a biography B of an individual who is culturally different from themselves along particular dimensions and to  
 use these documents to conduct cross cultural comparisons C between themselves and the person they interviewed  
 Furthermore candidates developed culturally responsive ideas for the school or the workplace C These exchanges and  
 analyses produced epiphanies and insights that translated into specific actions to improve cultural understanding and  
 communication in classrooms and workplaces Educators and professionals can take from these examples to inspire their own  
 personal journey toward greater cultural understanding and sensitivity      Designing and Using Rubrics for Reading and
