Handbook of Educational Psychology Lyn Corno, Eric M. Anderman, 2015-07-06 The third edition of the *Handbook of Educational Psychology* is sponsored by Division 15 of the American Psychological Association. In this volume, thirty chapters address new developments in theory and research methods while honoring the legacy of the field's past. A diverse group of recognized scholars within and outside the U.S. provide integrative reviews and critical syntheses of developments in the substantive areas of psychological inquiry in education: functional processes for learning, learner readiness and development, building knowledge and subject-matter expertise, and the learning and task environment. New chapters in this edition cover topics such as learning sciences, research, latent variable models, data analytics, neuropsychology, relations between emotion, motivation, and volition, EMOVO, scientific literacy, sociocultural perspectives on learning, dialogic instruction, and networked learning. Expanded treatment has been given to relevant individual differences, underlying processes, and new research on subject-matter acquisition. *The Handbook of Educational*
