Muscle Car Special Editions Duncan Scott Brown,2021-08-15 Get one before one gets you Motion Performance's catchy sales pitch for builder Joel Rosen's Phase III Specialty Muscle Cars sums up the escalating performance scene in the late 1960s. Special edition muscle cars were essential to keep pace. Joel and other independent car builders such as Carroll Shelby, George Hurst, Dick Harrell, Mr. Norm, and Jim Wangers did what the factories couldn't do: take the muscle car and turn it into a tire-burning monster. Although the Pontiac GTO established the muscle car category in 1964, a host of corporate safety restrictions restrained factories from offering turn-key race cars off the showroom floor. Independent car builders enhanced appearance and amplified performance in an attempt to do what the manufacturers wouldn't. Motion Performance issued a written guarantee: Phase III cars would run 11.5 at 120 mph down the quarter mile. Some of the most iconic nameplates in automotive history were applied in this era, with names that included Cheetah, Black Panther, Royal Bobcat, Super Hugger, Manta Ray, Super Snake, Deuce, Fast Track, and The Machine. How did manufacturers stealthily promote these special edition muscle cars as halo cars while pretending not to endorse them? What happened to these innovators when factories assimilated their ideas? It's all covered inside Muscle Car. Historian Duncan Brown takes us through these special edition muscle cars, their creators, and the behind-the-scenes forces that shaped these wild beasts into legends that left a lasting legacy.

Camaro Mike Mueller,2017-01-02 Camaro Fifty Years of Chevy Performance chronicles the first fifty years of Chevrolet's iconic Camaro through fascinating photography, history, and commentary about this legendary pony car. The early 1960s saw American auto manufacturers desperately trying to sell cars to the emerging baby boom market. Chevrolet attained some success with its sporty Corvair Monza. Ford responded first with a sportier Falcon, then with its grand slam home run pony car, the Mustang. At first, Chevrolet hesitated to abandon the technologically advanced Corvair, but when it finally entered the pony car market in 1967, its new Camaro instantly became one of the most iconic cars of the classic muscle car era. When muscle cars went dormant for a generation, it was once again the classic pony cars that jump-started American performance. The battle that raged between Camaro and Mustang in the 1980s rejuvenated the US auto industry's interest in high performance muscle cars. The Camaro lost its way in the 1990s with Chevrolet pursuing technological advances and Ford pursuing classic American muscle. As was the case in the 1960s, Ford's muscular pony car trounced Chevrolet's technologically advanced sporty car in the race that mattered most: showroom sales. The Mustang thrived while the Camaro left the scene. Fortunately, that departure was only temporary. Chevrolet introduced a twenty-first century Camaro in 2010, and it has become one of Chevrolet's most popular models. With stunning photography from author Mike Mueller and never-before-seen archival photography from partner General Motors, Camaro Fifty Years of Chevy Performance chronicles the Camaro's rich history from the early attempts to reach the youth market in the 1960s through
