for newly qualified teachers and PGCE students of business education and economics It covers the training standards for NQTS but goes beyond this with a focus on the subject expertise they bring into teaching **International Practices to Promote Budget Literacy** Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising

of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government s fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives

Powering Up Students Graham Powell, Guy Claxton, 2019-05-31 In Powering Up Students The Learning Power Approach to high school teaching Guy Claxton and Graham Powell detail the small tweaks to daily practice that will help high school teachers boost their students learning dispositions and attitudes Foreword by John Hattie The Learning Power Approach LPA is a pedagogical formula which aims to develop all students as confident and capable learners ready willing and able to choose design research pursue troubleshoot and evaluate learning for themselves alone and with others in school and out This approach therefore empowers teachers to complement their delivery of content knowledge and skills with the nurturing of positive habits of mind that will better prepare students to flourish in later life Building upon the foundations carefully laid in The Learning Power Approach ISBN 9781785832451 the first book in the Learning Power series Guy Claxton and Graham Powell s Powering Up Students embeds the ideas of this influential method in the context of the high school It offers a thorough explanation of how the LPA s design principles apply to this level of education and by presenting a wide range of practical strategies and classroom examples illustrates how they can be put into action with different age groups and in different curricular areas especially relating to literacy and numeracy but also in specific subjects such as science history geography and design technology All teachers can foster the capacity of students to be for example curious attentive imaginative rational and reflective and Guy and Graham provide clear guidance on how this can be achieved Step by step they explore all aspects of pedagogy from how to make learning compelling and challenging to how best to make use of the environment for learning from how to coach students so that they become more independent and responsible directors of their own learning to subtle shifts in teacher language and behaviour that change the climate for learning Rooted in the authors knowledge of international research about how students can and should learn in schools this
