Sexuality, Society & Pedagogy Dennis A. Francis, 2013-01-01 Sexuality Society and Pedagogy problematises some of the prevailing assumptions that frame this area of study In doing so it aims to make visible the challenges of teaching sexuality education in South African schools while demonstrating its potential for reshaping our conceptions of the social and cultural representations thereof Although the book is largely situated in experiences and perspectives within the South African context it is hoped that the questions raised reflections analyses and arguments will contribute to thinking about sexuality education in diverse contexts in particular more developing contexts Teacher Education in the 21st Century Reginald Monyai, 2019-05-02 A learner centred curriculum provides space for the learner to be actively involved in knowledge production and learning Such can only happen if the learner s confidence is boosted by a feeling of control and ability to manage his or her progress towards acquiring a qualification The twenty first century teacher must create an environment that not only supports the Four Pillars of Learning but also leads to learners being allowed a voice to ask pertinent questions The teacher should be able to guide the student to full physical and mental maturity and should help to develop critical thinking and the students should be encouraged to practice the truth and have self respect and respect for other people This can happen if the learner is afforded the opportunity to self accept If the learners fail to do so they are likely to have lack of confidence which will lead to lack of independence *Combating School-Based Violence Using African Indigenous Knowledge Systems* Mfundo Mandla Masuku, Nomakhosi Nomathemba Sibisi, 2025-05-12 Using African epistemologies to understand contributing social and cultural factors around African school violence this book investigates various kinds of school based violence suffered by learners and teachers in order to further research into the impact of

educational interventions on crime prevention in African schools Investigating various kinds of school violence including gender based violence and gang violence the book uses African Indigenous Knowledge Systems and the philosophy of Ubuntu for example to tackle important concerns surrounding school violence social cohesion community engagement and role of education in fostering sustainable communities Chapters demonstrate a qualitative research approach that encompasses empirical and conceptual studies to provide an in depth exploration of violence in educational settings the book draws on human experiences and emotions as well as teachers learners communities and other relevant stakeholders perceptions of school violence This highly interdisciplinary volume will be of immense value to scholars researchers and postgraduate students in the fields of sociology of education philosophy of education and educational psychology Curriculum developers involved with module design may also find the volume of use
