Story**

## **17 Inch Powerbook Manual:**

CSS: The Missing Manual David Sawyer McFarland, 2006-08-24 Web site design has grown up Unlike the old days when designers cobbled together chunky HTML bandwidth hogging graphics and a prayer to make their sites look good Cascading Style Sheets CSS now lets your inner designer come out and play But CSS isn't just a tool to pretty up your site it's a reliable method for handling all kinds of presentation from fonts and colors to page layout CSS The Missing Manual clearly explains this powerful design language and how you can use it to build sparklingly new Web sites or refurbish old sites that are ready for an upgrade Like their counterparts in print page layout programs style sheets allow designers to apply typographic styles graphic enhancements and precise layout instructions to elements on a Web page Unfortunately due to CSS's complexity and the many challenges of building pages that work in all Web browsers most Web authors treat CSS as a kind of window dressing to spruce up the appearance of their sites Integrating CSS with a site's underlying HTML is hard work and often frustratingly complicated As a result many of the most powerful features of CSS are left untapped With this book beginners and Web building veterans alike can learn how to navigate the ins and outs of CSS and take complete control over their Web pages appearance Author David McFarland the bestselling author of O'Reilly's Dreamweaver The Missing Manual combines crystal clear explanations real world examples a dash of humor and dozens of step by step tutorials to show you ways to design sites with CSS that work consistently across browsers You'll learn how to Create HTML that's simpler uses less code is search engine friendly and works well with CSS Style text by changing fonts colors font sizes and adding borders Turn simple HTML links into complex and attractive navigation bars complete with CSS only rollover effects that add interactivity to your Web pages Style images to create effective photo galleries and special effects like CSS based drop shadows Make HTML forms look great without a lot of messy HTML Overcome the most hair pulling browser bugs so your Web pages work consistently from browser to browser Create complex layouts using CSS including multi column designs that don't require using old techniques like HTML tables Style Web pages for printing Unlike competing books this Missing Manual doesn't assume that everyone in the world only surfs the Web with Microsoft's Internet Explorer our book provides support for all major Web browsers and is one of the first books to thoroughly document the newly expanded CSS support in IE7 currently in beta release Want to learn how to turn humdrum Web sites into destinations that will capture viewers and keep them longer Pick up CSS The Missing Manual and learn the real magic of this tool

**The Carbon Buster's Home Energy Handbook** Godo Stoyke, 2006-11-01 Most people are unaware that environmental problems such as climate change can be easily avoided at a profit through the intelligent application of appropriate technology The Carbon Buster's Home Energy Handbook describes how to achieve this goal in the residential field The first book in North America to provide a detailed carbon accounting of a family's carbon emissions and how to reduce them it systematically analyzes energy costs and evaluates which measures yield the highest returns for the environment and the pocketbook It provides answers to questions such as

Which measure is more effective putting solar panels on your roof or buying a hybrid car Where do I need to invest first in high efficiency shower heads or solar tubes Is a 500 fridge that uses 800 kWh of power per year a good buy The book allows individuals to quickly and accurately assess which products are a good deal and which aren't It systematically analyzes residential carbon emissions and energy costs and prioritizes solutions based on highest carbon reductions and monetary returns yielding results that are often surprising The book enables readers to dramatically reduce their carbon emissions far below the levels targeted under the Kyoto Protocol At the same time readers implementing the recommendations will save an average of 15 000 in energy costs over the next five years iWork '05: The Missing Manual Jim Elferdink,2005-09-21

Introduced by Apple in January 2005 iWork 05 is an innovative new suite of document and presentation software that's the same caliber as Apple's groundbreaking digital media applications and that's wholly dedicated to what Mac users like you care about most artistry and creativity iWork 05 isn't about office productivity it's about creating slick and stylish documents and cinema quality digital presentations that say precisely what you want them to say While iWork 05 helps you create stunning documents and presentations the suite doesn't come with any in-depth documentation of its own That's where iWork 05 The Missing Manual comes in The book that should have been in the box it gives you everything you need to master iWork 05 Seamlessly integrated with the wildly popular iLife 05 and designed to take advantage of the advanced typography and graphics engine of Mac OS X iWork is actually two separate programs Pages and Keynote 2 Pages is a brand new streamlined word processor and page layout program that allows nonprofessionals to quickly and painlessly produce gorgeous brochures newsletters letters invitations product data sheets and more You can start documents from scratch or use one of the 40 professionally designed templates as a starting point Keynote 2 is a significant upgrade to Keynote Apple's PowerPoint-like presentation software that allows you to build unique presentations demonstrations storyboard animations interactive slideshows and more Like every Missing Manual this one is refreshingly entertaining and scrupulously detailed iWork 05 The Missing Manual gives you all the essentials of Pages and Keynote 2 including an objective look at each program's capabilities its advantages over similar programs and its limitations The book delivers countless goodies that you won't find anywhere else undocumented tips tricks and secrets for getting the very best results from both exciting new applications With the iWork 05 suite and iWork 05 The Missing Manual you are totally equipped to give your work the style it deserves

**iPhoto '09: The Missing Manual** David Pogue,J.D. Biersdorfer,2009-04-23 With iPhoto 09 Apple's popular photo organizer and editing program is better than ever Unfortunately intuitive as it may be iPhoto still has the power to confuse anyone who uses it That's why more people rely on our Missing Manual than any other iPhoto resource Author and New York Times tech columnist David Pogue provides clear and objective guidance on every iPhoto feature including new tools such as face recognition place recognition based on GPS data themed slideshows online sharing enhanced editing and travel maps You'll find step by step instructions along with many undocumented tips and tricks With iPhoto 09 The Missing Manual you

will Get a course in picture taking and digital cameras how to buy and use a digital camera how to compose brilliant photos in various situations Import organize and file your photos and learn how to search and edit them Create slideshows photo books calendars and greeting cards and either make or order prints Share photos on websites or by email and turn photos into screensavers or desktop pictures Learn to manage your Photo Libraries use plug ins and get photos to and from camera phones There s much more in this comprehensive guide Discover today why iPhoto 09 The Missing Manual is the top selling iPhoto book *Mac OS X: The Missing Manual, Tiger Edition* David Pogue,2005-07-12 You can set your watch to it As soon as Apple comes out with another version of Mac OS X David Pogue hits the streets with another meticulous Missing Manual to cover it with a wealth of detail The new Mac OS X 10.4 better known as Tiger is faster than its predecessors but nothing s too fast for Pogue and *Mac OS X The Missing Manual* There are many reasons why this is the most popular computer book of all time With its hallmark objectivity the Tiger Edition thoroughly explores the latest features to grace the Mac OS Which ones work well and which do not What should you look for This book tackles Spotlight an enhanced search feature that helps you find anything on your computer iChat AV for videoconferencing Automator for automating repetitive manual or batch tasks and the hundreds of smaller tweaks and changes good and bad that Apple s marketing never bothers to mention *Mac OS X The Missing Manual Tiger Edition* is the authoritative book that s ideal for every user including people coming to the Mac for the first time Our guide offers an ideal introduction that demystifies the Dock the unfamiliar Mac OS X folder structure and the entirely new Mail application There are also mini manuals on iLife applications such as iMovie iDVD and iPhoto those much heralded digital media programs and a tutorial for Safari Mac s own web browser And plenty more learn to configure Mac OS X using the System Preferences application keep your Mac secure with FileVault and learn about Tiger s enhanced Firewall capabilities If you re so inclined this Missing Manual also offers an easy introduction to the Terminal application for issuing basic Unix commands There s something new on practically every page and David Pogue brings his celebrated wit and expertise to every one of them Mac s brought a new cat to town and we have a great new way to tame it
