Coffman, 2013-05-09 Since the 1972 publication of Dean M Kelley's Why Conservative Churches Are Growing discussion of the Protestant mainline has focused on the tradition's decline Elesha J Coffman's The Christian Century and the Rise of Mainline Protestantism tells a different story using the lens of the influential periodical The Christian Century to examine the rise of the mainline to a position of cultural prominence in the first half of the twentieth century The Christian Century and the Rise of the Protestant Mainline Elesha J. Coffman, 2013-04-04 The Christian Century and the Rise of the Protestant Mainline offers the first full length critical study of The Christian Century widely regarded as the most influential religious magazine in America for most of the twentieth century and hailed by Time as Protestantism's most vigorous voice Elesha Coffman narrates the previously untold story of the magazine exploring its

chronic financial struggles evolving editorial positions and often fractious relations among writers editors and readers as well as the central role it played in the rise of mainline Protestantism Coffman situates this narrative within larger trends in American religion and society Under the editorship of Charles Clayton Morrison from 1908 1947 the magazine spoke out about many of the most pressing social and political issues of the time from child labor and women s suffrage to war racism and the internment of Japanese Americans during World War II It published such luminaries as Jane Addams Reinhold Niebuhr and Martin Luther King Ir and jostled with the Nation the New Republic and Commonweal as it sought to enlarge its readership and solidify its position as the voice of liberal Protestantism But by the 1950s internal strife between liberals and neo orthodox and the rising challenge of Billy Graham's evangelicalism would shatter the illusion of Protestant consensus The coalition of highly educated theologically and politically liberal Protestants associated with the magazine made a strong case for their own status as shepherds of the American soul but failed to attract a popular following that matched their intellectual and cultural clout Elegantly written and persuasively argued The Christian Century and the Rise of the Protestant Mainline takes readers inside one of the most important religious magazines of the modern era Metropolitan Pulpit and American Monthly Review of Reviews Albert Shaw,1915 Homiletic Monthly ,1914 Cultural Insights for Christian Leaders (Mission in Global Community) Douglas McConnell, 2018-07-17 Christianity Today 2019 Book Award Winner This volume helps leaders and leaders in training become students of culture who can then contextualize what they learn for their own organizational settings Douglas McConnell a respected leader in the worlds of missiology and higher education enables readers to understand intercultural dynamics so they can shape their organizational cultures and lead their organizations in a missional direction This is the latest volume in an award winning series emphasizing mission as partnership with Christians The Congregationalist .1923 around the globe *Faith on the Avenue* Katie Day, 2014-02 In a richly illustrated revelatory study of Philadelphia s Germantown Avenue home to a diverse array of more than 90 Christian and Muslim congregations Katie Day explores the formative and multifaceted role of religious congregations within an urban environment Germantown Avenue cuts through Philadelphia for eight and a half miles from the affluent neighborhood of Chestnut Hill to the high crime section known as the Badlands The congregations along this route range from the wealthiest to the poorest populations in Philadelphia Some congregants are immigrants who find safety and support in close fellowship while others are long time residents whose congregations are actively involved in providing social services Cities undergo constant change and their congregations change with them As Day observes some congregations have sprung up in former commercial strips harboring new arrivals and recreating a sense of home and others form an anchor for a neighborhood across generations providing a connection to the past and a hope of stability for the future Social scientists urban planners and politicians have long overlooked the agency of communities of faith in the construction of the social cultural economic and physical reality of life in the city Drawing on years of research in depth interviews with religious leaders and

congregants and a wealth of demographic data Day demonstrates the powerful influence cities exert on their congregations and the surprising and important impact congregations have on their urban environments
