

Telehealth Billing Guidelines for Orthopedics

During the COVID-19 public health emergency, reimbursements for telehealth continue to evolve. The federal government, state Medicaid programs, and private insurers have expanded coverage for virtual health care services. More Medicare Fee-for-Service (FFS) services are billable as telehealth during the COVID-19 public health emergency. In this blog, we shared telehealth billing guidelines for [medical billing specialty orthopedics](#).

This article will answer basic telehealth billing questions like: How should I bill telehealth? How to bill for Medicare telehealth visits? Which procedure codes and modifiers should I use? What are the restrictions I should watch out for?

Video Visit Billing

The CPT codes for virtual video visit billing are 99201-99215. CPT 99201-99205 are for new patients while 99211-99215 are for established patients. We recommend limiting televisits to established patients. Please note that American Medical Association CPT rules may differ from CMS guidelines. It is important to know which guidelines your commercial carrier is following.
