The Oxford Handbook of the Archaeology and Anthropology of Rock Art Bruno David,Ian J. McNiven,2018 Rock art is one of the most visible and geographically widespread of cultural expressions and it spans much of the period of our species existence Rock art also provides rare and often unique insights into the minds and visually creative capacities of our ancestors and how selected rock outcrops with distinctive images were used to construct symbolic landscapes and shape worldviews Equally important rock art is often central to the expression of and engagement with spiritual entities and forces and in all these dimensions it signals the diversity of cultural practices across place and through time Over the past 150 years archaeologists have studied ancient arts on rock surfaces both out in the open and within caves and rock shelters and social anthropologists have revealed how people today use art in their daily lives The Oxford Handbook of the Archaeology and Anthropology of Rock Art showcases examples of such research from around the world and across a broad range of cultural contexts giving a sense of the art's regional variability its antiquity and how it is meaningful to people in the recent past and today including how we

have ourselves tended to make sense of the art of others replete with our own preconceptions It reviews past present and emerging theoretical approaches to rock art investigation and presents new cutting edge methods of rock art analysis for the student and professional researcher alike

Abernethy, 2011-10-21 Only 4 percent of arable land in sub Saharan Africa is irrigated using just 2 percent of the available water resources Furthermore 18 percent of the area equipped for irrigation is not utilized at all and the intensity of use varies between 50 percent and 80 percent This highlights the huge potential available for intensifying and expanding irrigated area provided that the investments required can be successfully mobilized However it must be noted that if investments in irrigation are to yield satisfactory returns investments must also be made in a series of related activities Current global figures for the amount of private investment in irrigation confirm that good returns can indeed be achieved Prospects for sub Saharan Africa would be far more favorable if public development

Pluralisation religieuse entre éclatement et concurrence* LASSEUR Maud et MAYRARGUE Cédric (dossier coordonné par), 2011-11-22 Dossier coordonné par Maud Lasseur et Cédric Mayrargue avec les contributions de J D Y Peel Mathilde Gingembre Frédéric Louveau et Marie Miran Guyon Depuis une vingtaine d'années l'Afrique connaît une explosion de la religiosité qui se traduit par une multiplication spectaculaire des manifestations de la foi les nouvelles Eglises chrétiennes fleurissent tous les coins de rue les grandes confréries islamiques se voient concurrencées par de puissants courants réformistes de nouvelles croyances se développent en s'appuyant sur des cultes non traditionnels ou des mouvements transnationaux La concurrence peut parfois produire de violences conflits comme au Nord Nigeria Comment interpréter cette explosion religieuse qui prend l'allure d'un véritable mouvement social Ce dossier propose une analyse de ces dynamiques religieuses contemporaines sous l'angle de la pluralisation analysée comme un double processus d'éclatement de l'offre et des pratiques culturelles mais aussi d'interactions renouvelées entre acteurs religieux Ce volume ouvre un nouveau jour les fils complexes qui se nouent ou se dénouent entre forces religieuses en situation de pluralisme      Minority Protection in Post-Apartheid South Africa Kristin Henrard, 2002-08-30 Accommodation of population diversity is a vital issue for any multinational society The legacy of Apartheid in South Africa complicates this effort considerably Henrard introduces a theoretical framework regarding how to accommodate minority protection in the most appropriate way and analyzes the respective contributions of individual rights minority rights and the right to self-determination Subsequent chapters examine the case study of post-apartheid South Africa and attempt to investigate its constitutional development Henrard finds that provisions within the 1996 Constitution do acknowledge an interrelation between these three important factors however implementation of minority protection policy is often quite a different matter In seeking appropriate means of minority protection this study stresses inclusionism integration and the essential right to identity and real equality While Henrard reviews and discusses the entire democratic transformation process in South Africa she cautions that because current developments are characterized by their unsettled nature major transformation and flux analysis of the implementation phase can be only indicative The apartheid history does not in itself inhibit progressive stances on this important issue Still despite the promising nature of the 1996 Constitution the picture that emerges in terms of policy development aimed at minority protection is ambivalent      Eskom Sylvie Jaglin, Alain Dubresson, 2016-08-16 Africa's leading producer of electricity Eskom Holdings SOC Ltd is also a vertically integrated monopoly owned by the South African state This national champion was shaken in 2008 when it was obliged to introduce load shedding or rolling blackouts and again in late 2014 Trying to understand how and why one of the iconic pillars of South African state capitalism is now in distress the authors of this book argue that the so-called electricity crisis is in fact a public

monopoly crisis Moving beyond technical aspects they explore the relationship between state power and Eskom before during and after apartheid From this perspective they suggest that the current technical and financial troubles of this public utility are illustrative of the weakening of its technopolitical regime of how national institutions have governed Eskom s technological development and of the pursuit of political goals in the production of electrical power Without a clear industrial strategy during the 2000s Eskom became a powerful tool of Broad Black Economic Empowerment as well as a neopatrimonial system which generates profits captured by the ruling party As a result crisis in Eskom shakes the whole political edifice Inefficient and its finances increasingly under scrutiny this state owned enterprise s existence as a monopolistic public utility is regularly a subject of debate The authors discuss the ambivalent role of Eskom in the national energy transition policy and whether solutions point in the direction of de integrating this public monopoly and allowing its current technopolitical regime to enter a planned or natural decline [African Journal of Reproductive Health](#) ,2008
