## **Afro Latin America 18:**

Coming of Age in the Afro-Latin American Novel Bonnie S. Wasserman, 2022 This book is the first study of recent coming of age novels from Brazil and the Spanish speaking Caribbean I investigate the divide in Afro Latin American research that usually favors either Hispanic America or Brazil but not both I argue that contemporary novelists have adapted the coming of age novel to explore central themes in the Afro Latin American experience such as Blackness African religions and folkloric traditions and immigration While there is no firm consensus on the term Blackness scholars typically use the term to describe the social cultural and historical experience of Afro descendants in the diaspora The Afro Latin American bildungsroman examined in this study include a number of religions such as Catholicism Spiritism and syncretic folk religions as well as Santería and Umbanda reflecting the variety of beliefs in Latin America I have found that young people turn to religions and spiritual traditions in time of need Going on a journey as part of one's personal development is one of the central themes of many bildungsroman and this pertains too in Afro Latin American novels Caribbean characters are depicted as immigrating to the United States whereas few Brazilians have enough resources to travel to North America and instead move to larger cities within their own country

Afro-Latin America, 1800-2000 George Reid Andrews, 2004-06-24 While the rise and abolition of slavery and ongoing race relations are central themes of the history of the United States the African diaspora actually had a far greater impact on Latin and Central America More than ten times as many Africans came to Spanish and Portuguese America as the United States In this the first history of the African diaspora in Latin America from emancipation to the present George Reid Andrews deftly synthesizes the history of people of African descent in every Latin American country from Mexico and the Caribbean to Argentina He examines how African peoples and their descendants made their way from slavery to freedom and how they helped shape and responded to political economic and cultural changes in their societies Individually and collectively they pursued the goals of freedom equality and citizenship through military service political parties civic organizations labor unions religious activity and other avenues Spanning two centuries this tour de force should be read by anyone interested in Latin American history the history of slavery and the African diaspora as well as the future of Latin America

The Afro-Descendant Woman in Latin American Diasporic Visual Art Rosita Scerbo, 2024-07-05 By studying multiple cultural expressions of Blackness throughout different regions of the Americas the chapters of this book consider the relationship that social and historical processes such as sovereignty and colonialism have on cultural productions made by and about Black Latin American women Rosita Scerbo analyzes a range of power dynamics as represented in different artistic media of the Afro Latin x American community including photography muralism performance paintings and digital art The book acknowledges that racial and gender equity cannot exist without Intersectionality and that is why the entirety of the chapters focus on cultural and visual productions exclusively created by Afro descendant women The Black Latin American women featured in the various chapters spanning multiple artistic

mediums and originating from various Latin American and Caribbean nations including Mexico Colombia the Dominican Republic Puerto Rico Brazil and Cuba collectively pursue the central aim of foregrounding the Afro descendant woman s experience Simultaneously they strive to enhance the visibility and acknowledgment of gendered Afro diasporic culture within the Latin American context The book will be of interest to scholars working in art history gender studies women s studies Latin American studies African diaspora studies and race and ethnic studies     *The Routledge Companion to Twentieth and Twenty-First Century Latin American Literary and Cultural Forms* Guillermina De Ferrari,Mariano Siskind,2022-08-19 The Routledge Companion to Twentieth and Twenty First Century Latin American Literary and Cultural Forms brings together a team of expert contributors in this critical and innovative volume Highlighting key trends within the discipline as well as cutting edge viewpoints that revise and redefine traditional debates and approaches readers will come away with an understanding of the complexity of twenty first century Latin American cultural production and with a renovated and eminently contemporary understanding of twentieth century literature and culture This invaluable resource will be of interest to advanced students and academics in the fields of Latin American literature cultural studies and comparative literature     *Critical Perspectives on Afro-Latin American Literature* Antonio D. Tillis,2012-04-23 After generations of being rendered virtually invisible by the US academy in critical anthologies and literary histories writing by Latin Americans of African ancestry has become represented by a booming corpus of intellectual and critical investigation This volume aims to provide an introduction to the literary worlds and perceptions of national culture and identity of authors from Spanish America Brazil and uniquely Equatorial Guinea thus contextually connecting Africa to the history of Spanish colonization The importance of Latin America literature to the discipline of African Diaspora studies is immeasurable and this edited collection provides a ripe cultural context for critical comparative analysis among the vast geographies that encompass African and African Diaspora studies Scholars in the area of African Diaspora Studies Black Studies Latin American Studies and American literature will be able to utilize the eleven essays in this edition to enhance classroom instruction and further academic research     **Afro-Latin American Studies** Alejandro de la Fuente,2018-04-26 Examines the full range of humanities and social science scholarship on people of African descent in Latin America     **AfroLatinas and LatiNegras** Concetta Bondi,Rosita Scerbo,2022-11-28 AfroLatinas as a subject of scholarship are woefully underrepresented and this edited volume AfroLatinas and LatiNegras Culture Identity and Struggle from an Intersectional Perspective offers an important and timely intervention The consistent attention to AfroLatinas agency across all the chapters is empowering and attentive to the difficult circumstances of asserting that agency and to the tremendous breadth of what agency can look like The authors argue for the analytical power of the concept of Intersectionality while considering the hegemonic pressures on AfroLatinidad and the essentializing moves that an intersectional approach enables evading overthrowing and resisting systems of power Through the study of multiple cultural expressions of Blackness such as

photography colonial inquisition records dance music fiction non fiction poetic memoir and religious expression and throughout different region of the Americas the chapter contributors of this book consider the relationship that social and historical processes such as sovereignty and colonialism have on narrative and cultural production Rosita Scerbo Concetta Bondi and the contributors acknowledge that racial and gender equity cannot exist without Intersectionality and the inclusion of activist voices broadens this volume's reach and links theory to praxis
