Effectiveness of Online Marketing Campaigns Sebastian Klapdor, 2013-02-19 Internet advertising has come off age yet little is known in research and practice about how digital channel advertising really works The empirical research in this thesis intends to fill this gap and shed light on the effectiveness of online advertising Two studies are conducted that focus on multichannel online advertising and search engine advertising the single most important online ad channel In an interdisciplinary approach both

studies first develop comprehensive theoretical models based on existing work in related research fields for example marketing and information retrieval This approach pays off and leads to new and insightful findings There are synergies in multichannel online advertising purchase propensity increases when consumers receive advertising messages through multiple channels The channel order can influence the conversion probability Click through rates in search engine advertising are influenced through various keyword criteria on semantic and syntactic level The results of this thesis constitute an important starting point for future research in online advertising Furthermore the results enable practitioners to improve the effectiveness of online advertising through a more differentiated campaign management approach Based on its findings the thesis outlines how a future integrated approach to online advertising could look like *Effective Advertising Strategies for Your Business* Cong Li,2014-08-01 As the media landscape has evolved over the past few years especially with the emergence of interactive and social media the philosophy of advertising is significantly changing Most businesses realize that the days when they relied on three national networks ABC NBC and CBS and a few national newspapers to advertise are gone thus they begin to find alternatives to standardized advertising Many of them begin to adopt more individualized advertising approaches empowered by Internet technologies This book outlines three fundamental strategies of advertising standardized targeted and individualized It describes each strategy in detail and discusses the pros and cons of each The importance of collecting consumer insights and incorporating those insights into advertising messages are also highlighted Although a few high technology companies such as Google Facebook and Amazon are showing success in delivering individualized advertising messages to consumers this approach including both personalization and customization is not suitable for all businesses No single strategy is absolutely more effective than the others however inside you are given a real strategy based on a scrutiny of the value proposition of the business and expectations of consumers .□ □□□□□□□ 01-01-2020, □□□□□ □□□□ □□□□ □□□□□□□□□□ *STRATEJİK MARKA YÖNETİMİ - İnşası, Ölçümü ve Marka Sermayesinin Yönetimi - STRATEGIC BRAND MANAGEMENT - Building, Measuring, and Managing Brand Equity* Kevin Lane Keller,
