**Argumentation** Lapakko Ph. D. David Lapakko Ph. D., David Lapakko, 2009-10 Argumentation Critical Thinking in Action 2nd ed explores a wide variety of issues and concepts connected to making arguments responding to the arguments of others and using good critical thinking skills to analyze persuasive communication Key topics include the nature of claims evidence and reasoning common fallacies in reasoning traits associated with good critical thinking how language is used strategically in argument ways to organize an argumentative case how to refute an opposing argument or case cultural dimensions of argument and ways to make a better impression either orally or in writing **Rhetoric and Discourse in Supreme Court**

**Oral Arguments** Ryan Malphurs, 2013-01-04 While legal scholars psychologists and political scientists commonly voice their skepticism over the influence oral arguments have on the Court's voting pattern this book offers a contrarian position focused on close scrutiny of the justices communication within oral arguments Malphurs examines the rhetoric discourse and subsequent decision making within the oral arguments for significant Supreme Court cases visiting their potential power and danger and revealing the rich dynamic nature of the justices interactions among themselves and the advocates In addition to offering advancements in scholars understanding of oral arguments this study introduces Sensemaking as an alternative to rational decision making in Supreme Court arguments suggesting a new model of judicial decision making to account for the communication within oral arguments that underscores a glaring irony surrounding the bulk of related research the willingness of scholars to criticize oral arguments but their unwillingness to study this communication With the growing accessibility of the Court's oral arguments and the inevitable introduction of television cameras in the courtroom this book offers new theoretical and methodological perspectives at a time when scholars across the fields of communication law psychology and political science will direct even greater attention and scrutiny toward the Supreme Court Argumentation and Advocacy, 2006
