Davis, Ph.D., 2013-11 This book is designed for criminal justice instructors It requires them to help students work through the various police reports The reports are intentionally left incomplete to require students to work through them Some reports may seem to ask confusing questions which may lead to unreliable responses This is to be used as a lesson unreliable responses create statistics that are not valid Managers need to improve the forms in order to obtain valid data This book first discusses communication theory and how it applies to police officers and prosecutors in the courtroom Information presented in the courtroom by police

officers has a significant impact upon the jurors. Indeed, police officers communicate both verbally and nonverbally in the courtroom and this affects their credibility on the stand. Furthermore, by employing persuasion theories, prosecutors can align the officers' testimonies to the jurors' particular communication preference. Second, this book discusses truth as it relates to probable cause and beyond reasonable doubt. Finally, because report writing is a significant part of police work, this book presents a variety of police forms that will engage students in written communication.

Emergency Management for Sport and Physical Activity Douglas J. Casa, Rebecca L. Stearns, 2014-03-20. Includes Forward by National Football League Commissioner Roger Goodell. Written by experts in the field, *Emergency Management for Sport and Physical Activity* is designed to educate non-Athletic Training majors on the ways in which to prevent sudden death during sport. Often, these non-medical professionals are the first on the scene and must at times serve the vital role of first responder and immediately act on behalf of athletes' lives. Due to the rigorous training and conditioning programs that are being undertaken by athletes, effective emergency management has become a growing concern. This text includes the recently published positioning statement released by the National Athletic Trainers Association (NATA), which addresses many of the important topics discussed throughout the book. It goes on to address the association's task force document on Preventing Sudden Death During Conditioning Sessions. Key Features: Web-based scenarios are included for each chapter; Includes case studies, feature boxes, and emergency action plans; First aid methods and techniques are included as an appendix; Includes position statements put forth by the National Athletic Trainers Association (NATA).
