*The Black Image in the New Deal* Nicholas Natanson,1992 Between 1935 and 1942 photographers for the New Deal's Resettlement Administration Farm Security Administration FSA captured in powerfully moving images the travail of the Great Depression and the ways of a people confronting radical social change Those who speak of the special achievement of FSA photography usually have in mind such white icons as Dorothea Lange's Migrant Mother or Walker Evans's Alabama sharecroppers But some six thousand printed images a tenth of FSA's total included black figures or their dwellings At last Nicholas Natanson reveals both the innovative treatment of African Americans in FSA photographs and the agency's highly problematic use of these images once they had been created While mono dimensional treatments of blacks were common in public and private photography of the period such FSA photographers as Ben Shahn Arthur Rothstein and Jack Delano were well informed concerning racial problems and approached blacks in a manner that avoided stereotypes right wing as well as left wing In addition rather than focusing exclusively on FSA approved agency projects involving blacks politically the safest course they boldly addressed wider social and cultural themes This study employs a variety of methodological tools to explore the political and administrative forces that worked against documentary coverage of particularly sensitive racial issues Moreover Natanson shows that those who drew on the FSA photo files for newspapers magazines books and exhibitions often entirely omitted images of black people and their environment or used devices such as cropping and captioning to diminish the true range of the FSA photographers vision

**The Struggle for Black Freedom in Miami** Chanelle Nyree Rose,2015-05-18 Offering new insights into Florida's position within the cultural legacy of the South The Struggle for Black Freedom in Miami explores the long fight for civil rights in one of the country's most

popular tourist destinations Chanelle N Rose examines how the sustained tourism and rapid demographic changes that characterized Miami for much of the twentieth century undermined constructions of blackness and whiteness that remained more firmly entrenched in other parts of the South The convergence of cultural practices in Miami from the American South and North the Caribbean and Latin America created a border community that never fit comfortably within the paradigm of the Deep South experience As white civic elites scrambled to secure the city's burgeoning reputation as the Gateway to the Americas an influx of Spanish speaking migrants and tourists had a transformative effect on conventional notions of blackness Business owners and city boosters resisted arbitrary racial distinctions and even permitted dark skinned Latinos access to public accommodations that were otherwise off limits to nonwhites in the South At the same time civil rights activists waged a fierce battle against the antiblack discrimination and violence that lay beneath the public image of Miami as a place relatively tolerant of racial diversity In its exploration of regional distinctions transnational forces and the effect of both on the civil rights battle The Struggle for Black Freedom in Miami complicates the black white binary and offers a new way of understanding the complexity of racial traditions and white supremacy in southern metropolises like Miami
