Latane,2015-02-25 have great pleasure in writing this foreword to Dr Latane s book on the Novels of William Boyd The book is a significant contribution to Boyd criticism It has discussed the early the middle and the last phase of Boyd s novels In doing if the author has defined the totality of Boyd s vision Indeed every novel is a part of this totality and the totality is more than a mere sum of the novels The reciprocal relationship between the part and the whole is the crux of novel criticism and the book has given due justice to this aspect Another important feature of the book is the analysis of the postmodernist

element in Boyd's novels This critical framework can be used to analyse the postmodernist element in the contemporary Indian novel in English Even going further it can be used to analyse the Postmodernist element in the contemporary Marathi novel A thesis is really acknowledged when it becomes a source material for the future researchers and comparatists Mr Latane's book has that potential I heartily wish a good reception to the book Dr Prakash Deshpande Kejkar Former Professor of English Shivaji University Kolhapur

Life Mapping as Cultural Legacy I-Chun Wang, Mary Theis, 2021-01-15 This volume celebrates a fascinating variety of nonfiction known as life writing This genre resonates quintessentially with the core of the humanities in its profoundly individual ways of fusing narrators with their narrative subjects The book brings together scholars from around the world to explore the personal mapping of such narrators in the context of their cultural legacies The hybrid fusions themselves form several subgenres that complement each other as they affirm human dignity and values and our need for human connection felt at all times but especially during times of globally met threats The ever expanding forms of hybridography here along with testimonies diaries letters and journals bear witness to how individuals have contrived to overcome their own traumatic sources of pain and suffering to discover joy and how to further map their pathways forward The narratives not only communicate important information and aesthetic beauty needed to prolong troubled lives due to social anxiety or mental illness but also challenge sociocultural issues involving stigma migration racial discrimination and persecution human trafficking and ecological concerns Global in scope personal in focus and historically and culturally contextualized the analyses provided here once again illustrate how much we have to learn from each other
