Smith, 2023-01-27 Throughout history and across cultures people have shared the hope and the belief that somehow something about the human person survives death Indeed it seems that without a notion of life after death this life would

seem meaningless If in the end everything we have strived for and all our love comes to naught and is simply swallowed up by nothingness then what was the point of it all In From Here to Eternity Randall Smith shows how the Christian doctrines regarding the resurrection of the body and the communion of saints provide an understanding of life after death as a meaningful fulfillment of this life not a negation of it 2016 Europe's Best Psychics And Mediums. Mysteries Marvin W. Meyer, 1999-05-07 Zeus and the other gods of shining Olympus were in reality divine only by popular consent. Over the course of time Olympian luster diminished in favor of religious experiences more immediate to the concerns of people living in an increasingly cosmopolitan ancient world. These experiences were provided by the mystery religions that flourished particularly during the Hellenistic period and were secretly practiced by groups of adherents who decided through personal choice to be initiated into the profound realities of one deity or another. Unlike the official state religions in which people were expected to make an outward show of allegiance to the local gods, the mysteries emphasized an inwardness and privacy of worship within a closed band of initiates. In this book Marvin W. Meyer explores the sacrifices and prayers, the public celebrations and secret ceremonies, the theatrical performances and literary works, the gods and goddesses that were a part of the mystery religions of Greece in the seventh century B.C. to the Judaism and Christianity of the Roman world of the seventh century A.D.

Stepping Stones to a Higher Vision Joseph P. Schultz, 2021-07-29 *Stepping Stones to a Higher Vision* examines the development of religious consciousness from religion to spirituality to mysticism. This developmental path, imaginatively described as stepping stones in the title of the book and as elevators of religion in chapter one, has its rewards but also its dangers and pitfalls. Intended for the non-specialist lay person interested in religion as well as the scholar, the book focuses on Jewish tradition and its sources: Hebrew Bible, Talmud, Midrash, and Kabbalah, but in a broad cross-cultural interdisciplinary context. Ritual, prayer, including meditation and contemplation, ethics, and morality, religious leadership, and the afterlife are analyzed in the context of sociology, science, and the history of religion.
