Brad Schwartz,2025-09-23 On the evening of October 30 1938 radio listeners across the United States heard a startling report of a meteor strike in the New Jersey countryside With sirens blaring in the background announcers in the field described mysterious creatures terrifying war machines and thick clouds of poison gas moving toward New York City As the invading force approached Manhattan some listeners sat transfixed while others ran to alert neighbors or to call the police Some even fled their homes But the hair raising broadcast was not a real news bulletin it was Orson Welles s adaptation of the H G Wells classic *The War of the Worlds* In *Broadcast Hysteria* A Brad Schwartz boldly retells the story of Welles s famed radio play and its impact Did it really spawn a wave of mass hysteria as *The New York Times* reported Schwartz is the first to examine the hundreds of letters sent to Orson Welles himself in the days after the broadcast and his findings challenge the conventional wisdom Few listeners believed an actual attack was under way But even so Schwartz shows that Welles s broadcast became a major scandal prompting a different kind of mass panic as Americans debated the bewitching power of the radio and the country s vulnerability in a time of crisis When the debate was over American broadcasting had changed for good but not for the better As Schwartz tells this story we observe how an atmosphere of natural disaster and impending war permitted broadcasters to create shared live national experiences for the first time We follow Orson Welles s rise to fame and watch his manic energy and artistic genius at work in the play s hurried yet innovative production And we trace the present day popularity of fake news back to its source in Welles s show and its many imitators Schwartz s original research gifted storytelling and thoughtful analysis make *Broadcast Hysteria* a groundbreaking new look at a crucial but little understood episode in American history      *Power Performance* Tony Silvia,Terry Anzur,2011-03-21 This book is a unique and definitive guide to the skills necessary for on camera journalism and offers an invaluable behind the scenes look at the profession Tailors the traditional skills of writing reporting and producing to the needs of journalists working in front of the camera Includes chapters devoted to the role of the storyteller reporting the story across multiple platforms and presenting the story on camera Incorporates profiles of leading multimedia journalists and public relations practitioners Addresses the key ethical issues for the profession Offers practical advice for putting presentation skills to work Storytelling skills covered can be applied to a variety of traditional and new media formats including television news radio and podcasts      *The World Factbook* ,2012      **The World Factbook 2012-13** Central
