Global Community Policing Arvind Verma, Dilip K. Das, Manoj Abraham, 2012-08-06 In nations all over the world community policing has been found extremely beneficial in improving public confidence in the police Community oriented policing and police citizen cooperation is now the accepted framework for all progressive police departments Drawn from the proceedings at the 2010 International Police Executive Symposium IPES in Community Policing in Indigenous Communities Mahesh K. Nalla, Graeme R. Newman, 2013-03-04 Indigenous communities are typically those that challenge the laws of the nation states of which they have become often very reluctantly a part Around the world community policing has emerged in many of these regions as a product of their physical environments and cultures Through a series of case studies *Community Policing in Indigenous Communities* explores how these often deeply divided societies operate under the community policing paradigm Drawing on the local expertise of policing practitioners and researchers across the globe the book explores several themes with regard to each region How community policing originated or evolved in the community and how it has changed over time The type of policing style used whether informal or formal and uniformed or non uniformed whether partnerships are developed with local community organizations or businesses and the extent of covert operations if any The role played by community policing in the region including the relative emphasis of calls for service the extent to which advice and help is offered to citizens whether local records are kept of citizen movement and locations and investigation and arrest procedures The community's special cultural or indigenous attributes that set it apart from other models of community policing Organizational attributes including status in the hierarchy of control within the regional or national organization of policing The positive and negative features of community policing as it is practiced in the community Its effectiveness in reducing and or preventing crime and disorder The book demonstrates that community policing cannot be imposed from above without grassroots input from local citizens It is a strategy not simply for policing with consent but for policing in contexts where there is often little if any consent It is an aspirational practice aimed to help police and communities within contested contexts to recognize that positive gains can be made enabling communities to live in relative safety

zero emission hydrogen as fuel could be the cornerstone of a new energy economy Hydrogen is the most abundant element in
the universe An invisible tasteless colorless gas it can be converted to nonpolluting zero emission renewable energy When
burned in an internal combustion engine hydrogen produces mostly harmless water vapor It performs even better in fuel
cells which can be 2 5 times as efficient as internal combustion engines Zero emission hydrogen does not contribute to CO₂
caused global warming Abundant and renewable it is unlikely to be subject to geopolitical pressures or scarcity concerns In
this new edition of his pioneering book Tomorrow's Energy Peter Hoffmann makes the case for hydrogen as the cornerstone
of a new energy economy Hoffmann covers the major aspects of hydrogen production storage transportation fuel use and
safety He explains that hydrogen is not an energy source but a carrier like electricity and introduces the concept of hydricity
the essential interchangeability of electricity and hydrogen He brings the hydrogen story up to date reporting on the latest
developments including new hydrogen and fuel cell cars from GM Daimler BMW Honda and Toyota He describes recent
political controversies including Obama administration Energy Secretary and Nobel laureate in Physics Steven Chu's
inexplicable dismissal of hydrogen which puts him at odds with major automakers German Chancellor Angela Merkel and
others Our current energy system is a complex infrastructure and phasing in hydrogen will take effort and money But if we
consider the real costs of fossil fuels pollution and its effects international tensions over gas and oil supplies and climate
change we would be wise to promote its development Fatherhood in the Borderlands Domino Renee Perez, 2022-12-06
2023 Finalist Best Academic Themed Book College Level English International Latino Book Awards A contemplative
exploration of cultural representations of Mexican American fathers in contemporary media As a young girl growing up in
Houston Texas in the 1980s Domino Perez spent her free time either devouring books or watching films and thinking always
thinking about the media she consumed The meaningful connections between these media and how we learn form the basis
of Perez's slow research approach to race class and gender in the borderlands Part cultural history part literary criticism
part memoir Fatherhood in the Borderlands takes an incisive look at the value of creative inquiry while it examines the
nuanced portrayal of Mexican American fathers in literature and film Perez reveals a shifting tension in the literal and
figurative borderlands of popular narratives and shows how form genre and subject work to determine the roles Mexican
American fathers are allowed to occupy She also calls our attention to the cultural landscape that has allowed such a
racialized representation of Mexican American fathers to continue unopposed for so many years Fatherhood in the
Borderlands brings readers right to the intersection of the white cultural mainstream in the United States and Mexican

American cultural productions carefully considering the legibility and illegibility of Brown fathers in contemporary media
