

**MARK SCHEME for the May/June 2013 series**

**9695 LITERATURE IN ENGLISH**

**9695/71**

**Paper 7 (Comment & Appreciation), maximum raw mark 50**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

*Medieval French Literary Culture Abroad* Jane Gilbert, Simon Gaunt, William Burgwinkle, 2020-02-27 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism The field of medieval francophone literary culture outside France was for many years a minor and peripheral sub field of medieval French literary studies or in the case of Anglo Norman or English studies The past two decades however have seen a major reassessment of the use of French in England in the Low Countries in Italy and in the eastern Mediterranean and this impacts significantly upon the history of literature in French more generally This book is the first to look at the question overall rather than just at one region It also takes a more sustained theorised approach than other studies drawing particularly on Derrida and on Actor Network Theory It discusses a wide range of texts some of which have hitherto been regarded as marginal to French literary history and makes the case for this material being more central to the literary history of French than was allowed in more traditional approaches focused narrowly on France Many of the arguments in *Medieval French Literary Culture Abroad* are grounded in readings of texts in manuscript rather than in modern critical editions and sustained attention is paid throughout to manuscripts that were produced or travelled outside the kingdom of France

*Shakespeare's Props* Sophie Duncan, 2019-01-30 Cognitive approaches to drama have enriched our understanding of Early Modern playtexts acting and spectatorship This monograph is the first full length study of Shakespeare s props and their cognitive impact Shakespeare s most iconic props have become transhistorical

transnational metonyms for their plays a strawberry spotted handkerchief instantly recalls Othello a skull Hamlet One reason for stage properties neglect by cognitive theorists may be the longstanding tendency to conceptualise props as detachable body parts instead this monograph argues for props as detachable parts of the mind Through props Shakespeare s characters offload reveal and intervene in each other s cognition illuminating and extending their affect Shakespeare s props are neither static icons nor substitutes for the body but volatile malleable and dangerously exposed extensions of his characters minds Recognising them as such offers new readings of the plays from the way memory becomes a weapon in Hamlet s Elsinore to the pleasures and perils of Early Modern gift culture in Othello The monograph illuminates Shakespeare s exploration of extended cognition recollection and remembrance at a time when the growth of printing was forcing Renaissance culture to rethink the relationship between memory and the object Readings in Shakespearean stage history reveal how props both carry audience affect and reveal cultural priorities some accrue cultural memories while others decay and are forgotten as detritus of the stage
