

⌚ Clock

In the self-regulating electric clock, there is a special mechanism for automatically correcting time gain or lag up to a limit of five minutes per 12 hours. Once regulated, the

clock tends to stay regulated. In setting the clock, you advance the hands toward the correct time if it is slow, and backward to the correct time if it is fast. If the error is larger—say five minutes—the first setting may reduce the error to one minute or less. A second setting, or a third if necessary, should put the clock right on time.

You should adjust any inaccuracy when you first get your car, ignoring it only multiplies the time needed for adjustment later.

🚬 Ash trays

The instrument panel ash tray is opened by pulling outward on the tray bottom front edge. To remove it for cleaning, open the tray and gently press down on front of tray while continuing to pull outward. To install the tray,

place the tray into the opening, aligning the sides and push in.

To remove the rear seat ash tray on 4-door models, depress the socket and pull tray out. On 2-door models, open the doors and lift tray assemblies from the rear seat.

💡 Lighter Lighter

Push the LIGHTER knob in all the way. When it is lost, the lighter will automatically pop out to its normal position.

1964 Falcon Owners Manual

JL Elias
