### SERIES

#### FOREWORD.

This Service Manual contains factory recommended procedures for ground handling, servicing and maintaining the Cessna 310 Series Aircraft. Where reference is made to the 310 Aircraft in this Service Manual, this reference applies to the 310P, 310Q and Turbo 310P and Turbo 310Q certified aircraft. This manual also describes the Cessna 310QII and Turbo 310QII which are the same as the Cessna 310Q and Turbo 310Q with some optional equipment installed as standard. Where there are specific differences, reference will be made to the individual aircraft. Besides serving as a reference for the experienced mechanic, this Service Manual also covers step-by-step procedures for the less experienced mechanic. This Service Manual should be kept in a handy place for ready reference. If properly used, it will better enable the mechanic to maintain the Cessna 310 Series aircraft and thereby, establish a reputation for reliable service.

The information in this Service Manual is based on data available at the time of publication, and is supplemented and kept current by Service Letters and Service News Letters published by Cessna Aircraft Company. These are sent to all Cessna Dealers so that they have the latest authoritative recommendations for servicing Cessna airplanes. Therefore, it is recommended that Cessna owners utilize the knowledge and experience of the factory-trained Dealer Service Organization.

In addition to the information in this Service Manual, a group of vendor publications are available from the Cessna Customer Services Department which describe complete disassembly, overhaul and parts breakdown of some of the various vendor equipment items. A listing of the available publications is issued periodically in Service Letters.

This Service Manual covers the 1969 through 1974 Model 310 and Turbo 310 Series aircraft which are certificated as follows:

| 1969          | 1970-1973     | 1974                           |
