*Nelson's Arctic Voyage* Peter Goodwin, 2019-05-16 In the summer of 1773 the 14 year old Horatio Nelson took part in an expedition to the Arctic which came close to ending his naval career before it had begun The expedition was to find a navigable northern passage between the Atlantic and Pacific and was supported by the Royal Society and King George III Two bomb vessels HMS Racehorse and Carcass were fitted out and strengthened under the command of Captain Hon Constantine Phipps It was an extremely cold Arctic summer and the ships became locked in ice far from Spitzbergen and were unable to cut their way out until days later when the wind changed and the ice broke up The ships were extricated and returned home On the trip the young Nelson had command of one of the smaller boats of the ships a four oared cutter manned by twelve seamen In this he helped to save the crew of a boat belonging to the Racehorse from an attack by a herd of enraged walruses He also had a more famous encounter with a polar bear while attempting to obtain a bearskin as a present for his father an exploit that later became part of the Nelson legend Drawing on the ship's journals and expedition commander Phipps journal from the National Archives the book creates a picture of the expedition and life on board Using the ships muster books it also details the ship's crews giving the different roles and ranks in the ships The book is illustrated using some of the ship's drawings and charts and pictures of many objects used on the ship while a navigational chart of the route taken has been created from the logbooks The book also looks at the overall concept of naval exploration as set in train by Joseph Banks and the Royal Society The fact that the expedition failed as a result of poor planning with potentially tragic results demonstrates the difficulties and uncertainties of such an expedition It also looks at a great naval

commander at the earliest stage of his career and considers how the experience might have shaped his later career and attitudes Other great captains and voyages are discussed alongside Nelson including Captain Cook and his exploration of the south seas and the later ill fated northern journeys of Franklin and Shackleton      **Favourite of Fortune** Andrew Bond, Frank Cowin, 2021-07-31 The Royal Navy of Nelson s time was not short of heroes nor of outstanding achievements but even in this crowded field the career of Captain John Quilliam stands out so often the right man in the right place at the right time he was justly described by a contemporary as the favourite of fortune Born on the Isle of Man 250 years ago Quilliam has until now evaded detailed study of his extraordinary life Indeed while celebrated as a Manx hero in the wider world beyond the Island one of the most important men on the quarter deck of HMS Victory at the Battle of Trafalgar remains largely unrecognised Trafalgar however was not even the high point of Quilliam s professional journey From the lowest rung of the ladder in the dockyard at Portsmouth he climbed to become Victory s First Lieutenant having already survived two of the bloodiest sea battles of the era at Camperdown and Copenhagen In the process he won a share in undreamed of wealth through the seizure of one of the largest hauls of Spanish gold ever taken by the Georgian navy Promoted Post Captain Quilliam reached the apogee of his profession commanding frigates in the Baltic and on the Newfoundland station in the War of 1812 There in a bizarre twist worthy of a novel by O Brian or Forester he defeated an accusation of shirking an engagement with the American super frigate President in a Court Martial brought by his own First Lieutenant This first full biography of a far from ordinary naval officer is itself an unusual collaboration between three writers each interested in different aspects of Quilliam s career but united by a belief that it deserves a wider audience      **Two Summers** Robert Ackerson, 2022 Explores the Mercedes Benz W 196 R s historic roots development and races Also its triumphs struggles and disappointments as well as the spirited challenges from Maserati Ferrari Gordini and Lancia Accompanying the text are hundreds of photos sourced from the legendary Daimler Archives      British Army of the Rhine Paul Chrystal, 2018-09-30 The nervous geopolitical tension between East and West the Cold War emerged before the end of the Second World War and lasted until 1991 with the collapse of the Soviet Union The British Army of the Rhine was born in 1945 out of the British Liberation Army at the close of the war as the military government of the British zone of occupied Germany As the Soviet threat increased so BAOR became less of an occupational army and assumed the role of defender of Western Europe and as a major contributor to NATO after 1949 This book traces and examines the changing role of BAOR from 1945 to its demise in the 1993 Options for Change defence cuts It looks at the part it played in the defence of West Germany its effectiveness as a Cold War deterrent the garrisons and capabilities logistics and infrastructure its arms and armour the nuclear option and the lives of the thousands of families living on the front line      Flying with the Fifteenth Air Force Tom Faulkner, 2018-11-15 In 1944 and 1945 Tom Faulkner was a B 24 pilot flying out of San Giovanni airfield in Italy as a member of the 15th Air Force of the U S Army Air Forces Only 19 years old when he completed his 28th and last mission Tom was one of the youngest bomber

pilots to serve in the U S Army Air Forces during World War II Between September 1944 and the end of February 1945 he flew against targets in Hungary Germany Italy Austria and Yugoslavia On Tom s last mission against the marshalling yards at Augsburg Germany his plane was severely damaged and he had to fly to Switzerland where he and his crew were interned The 15th Air Force generally has been overshadowed by works on the 8th Air Force based in England Faulkner s memoir helps fill an important void by providing a first hand account of a pilot and his crew during the waning months of the war as well as a description of his experiences before his military service David L Snead has edited the memoir and provided annotations and corroboration for the various missions

**Sub Hunters** Anthony Cooper,2021-01-29 Excellent photographs from the Australian War Memorial collection Dramatic air battles over a turbulent sea hundreds of miles from land and without hope of rescue Striking U boat kills as concrete proof of operational successes Beautifully illustrated with many rare and unpublished photographs Of interest to aviation and military historians modellers gamers and flight simulator enthusiasts 1943 was the turning point in the Battle of the Atlantic when forces technologies and tactics turned against Germany s U boats The victory not only secured Britain s trans Atlantic lifeline to the United States but also enabled the vast build up in military forces in Britain necessary to launch D Day in 1944 The Allied battle to defeat the U boat menace was a combined effort by the naval and air forces of several Allied nations and this is the story of one part during the decisive mid war period Nos 10 and 461 Squadrons of the Royal Australian Air Force flew Sunderland flying boats from bases in Wales and Devon as part of RAF Coastal Command these two squadrons flew long range daylight missions over the eastern Atlantic patrolling Britain s southwest approaches They hunted and killed U boats transiting between their mid Atlantic hunting grounds and their bases in Bordeaux and fought furious air battles over the Bay of Biscay against Luftwaffe Ju 88 long range fighters tasked

specifically with shooting them down These two Australian squadrons established a combat record **Whitaker's Cumulative Book List** ,1975 Beneath Haunted Waters Peter Stekel,2017-09-30 Drama Tragedy Irony Unsolved mysteries And throw in a little greed Beneath Haunted Waters is not a ghost story it s not that kind of haunted at all These are waters haunted by generations of people who cannot forget the story of how two B 24 Liberator bombers disappeared in 1943 and what happened to the boys on board During the World War II years the convention was to call young men in their late teens to their late 20s boys The boys who piloted bombers and fighter aircraft during World War II were 19 or 20 years old barely out of their childhood Imagine boarding a 737 today and seeing a teenager at the controls instead of a person with greying temples That was the situation during the war Beneath Haunted Waters is a story about that era when children flew large airplanes equipped with enough firepower to destroy cities And yet boys they were and boys they will always be But it s primarily a story of how they died not in combat but by accident During World War II the USA lost 7100 combat aircraft and 5300 trainers along with 15 530 pilots crew members and ground personnel in over 52 000 domestic accidents These statistics don t compare to the huge numbers of RAF 8th Air Force and Luftwaffe losses during the European air war but the numbers are still frightening Between 1942 1945 US aviation losses to accidents 12 400 exceeded combat losses 4500 to the Japanese For every plane shot down in the South Pacific there were three lost to accidents within the United States While memoirs of those who served histories of military and political leaders and books about combat abound very little has been written about the terrible toll of aviation training accidents during the war Beneath Haunted Waters is unique because it tells this hardly known and little appreciated story Most information on this subject is covered in official reports It appears in a casual way in many memoirs There are a few histories of the air war during World War II that mention aviation accidents during training or once the boys were in theater There has been no popular academic or comprehensive book on the subject I propose to cover this subject within the more personal story of what happened to the two Liberators that wound up in Huntington Lake and Hester Lake Usually pilots and crews of World War II aircraft were neither old enough to vote nor to drink Many had never driven a car or taken a train ride much less been in an airplane Nine months after enlistment they were flying the most technologically advanced high performance machines ever built The same could be said for their navigation equipment and radio gear But aviation had been around for only 40 years Aircraft design was still in its infancy Engines failed pilots flew into mountains navigators got lost radios broke and weather forecasts were frequently and fatally wrong Catalog of Copyright Entries, Third Series Library of Congress. Copyright Office,1975 **Hurricane** John Dibbs,Tony Holmes,Gordon Riley,2017-05-18 2017 marks the 80th anniversary of the remarkable Hawker Hurricane formally entering service The RAF s first monoplane fighter it dragged the Air Force into a position where it could defend Britain in her hour of need The true workhorse of the RAF the Hurricane came into its own in the hot summer months of 1940 valiantly defending the skies above Britain Outnumbering Spitfires three to one the Hurricane also downed far more enemy aircraft

Without the obvious elegance of the Me 109 or the Spitfire the Hurricane was nonetheless beloved by its pilots for its ability to simultaneously take a battering and inflict serious damage from its remarkably stable gun platform This stunning book reveals the Hurricane in all its glory from fascinating first hand accounts from the men who flew her to the truly breath taking images from John Dibbs of the Hurricanes still in flight today This lavish fully illustrated edition is a must have for all fans of aviation history

**Religious Trauma** Brooke N. Petersen, 2022-08-31 Through the rich stories of eight participants the author explores the psychological spiritual and ritual dimensions of religious trauma among queer people Drawing on current scholarship in the field of trauma studies the author makes a case for religious trauma as an important frame to understand the experiences of queer people in non accepting faith communities Though previous scholarship has limited the recovery from religious trauma to those who exit religious communities in this research the author analyzes participant stories to understand how queer people might find healing in accepting religious communities Using self psychology to understand the depth of trauma experienced in non accepting communities the author explores the experience of God and sexual identity within non accepting communities Through these narratives the author demonstrates the potential for post traumatic growth and life beyond conservative faith communities Petersen argues for a number of key recommendations for congregations and pastoral caregivers that seek to welcome those who have experienced religious trauma N.A.R.T.

**Big Week** James Holland, 2022-03-30 A history of World War II's Operation Argument in which US and British air forces led a series of raids against Nazi Germany in 1944 During the third week of February 1944 the combined Allied air forces based in Britain and Italy launched their first round the clock bomber offensive against Germany Their goal to smash the main factories and production centers of the Luftwaffe while also drawing German planes into an aerial battle of attrition to neutralize the Luftwaffe as a fighting force prior to the cross channel invasion planned for a few months later Officially called Operation Argument this aerial offensive quickly became known as Big Week and it was one of the turning point engagements of World War II In Big Week acclaimed World War II historian James Holland chronicles the massive air battle through the experiences of those who lived and died during it Prior to Big Week the air forces on both sides were in crisis Allied raids into Germany were being decimated but German resources fuel and pilots were strained to the breaking point Ultimately new Allied aircraft especially the American long range P 51 Mustang and superior tactics won out during Big Week Through interviews oral histories diaries and official records Holland follows the fortunes of pilots crew and civilians on both sides taking readers from command headquarters to fighter cockpits to anti aircraft positions and civilian chaos on the ground vividly recreating the campaign as it was conceived and unfolded In the

end the six days of intense air battles largely cleared the skies of enemy aircraft when the invasion took place on June 6 1944 D Day Big Week is both an original contribution to WWII literature and a brilliant piece of narrative history recapturing a largely forgotten campaign that was one of the most critically important periods of the entire war Praise for Big Week An Amazon Best Book of the Year With the aid of diaries memoirs and his own interviews Mr Holland gives a detailed crewman s eye view of combat from inside the British American and German aircraft during the months leading up to Big Week and during the week itself For those hoping for war movie stuff rest assured that the enemy fighters do come in at 6 o clock the guns do hammer the sun does glint and the chutes do blossom in the sky Still it s a serious and important story as well as a dramatic one and Mr Holland tells it with verve and authority David A Price Wall Street Journal Highly detailed The interplay of personal stories with the broader strategic picture makes this book especially illuminating A fascinating must read for World War II aficionados Kirkus Reviews starred review *Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... **UH-1 Huey Gunship vs NVA/VC Forces** Peter E. Davies,2021-08-19 Often described as the US Army s aerial jeep the UH 1 Iroquois Huey was the general purpose vehicle that provided mobility in a hostile jungle environment which made rapid troop movement extremely challenging by any other means Hueys airlifted troops evacuated casualties rescued downed pilots transported cargo externally and enabled rapid transit of commanders in the field Although vertical aviation had only become a practical reality during the Korean War helicopters evolved rapidly in the decade before Vietnam and by 1965 the US Army and US Marines relied on them as primary combat tools This was principally because North Vietnam s armed forces had long experience of jungle operations camouflage and evasion Generally avoiding set piece pitched battles they relied on rapid frequent strikes and withdrew using routes that were generally inaccessible to US vehicles They commonly relied on darkness and bad weather to make their moves often rendering them immune to conventional air attack Gunship helicopters sometimes equipped with Firefly searchlights and early night vision light intensifiers were more able to track and attack the enemy Innovative tactics were required for this unfamiliar combat scenario and for a US Army that was more prepared for conventional operations in a European type setting One of the most valuable new initiatives was the UH 1C Huey Hog or Frog gunship conceived in 1960 and offering more power and agility than the UH 1B that pioneered gunship use in combat Heavily armed with guns and rockets and easily transportable by air these helicopters became available in large numbers

and they became a major problem for the insurgent forces throughout the war. Covering fascinating details of the innovations in tactics and combat introduced by gunship helicopters, this book offers an analysis of their adaptability and usefulness in a variety of operations while exploring the insurgent forces' responses to the advent of vertical aviation.
