**The Routledge Companion to Vsevolod Meyerhold** Jonathan Pitches, Stefan Aquilina, 2022-11-09 The Routledge Companion to Vsevolod Meyerhold brings together a wealth of scholarship on one of the foremost innovators in European theatre. It presents a detailed picture of the Russian director's work from when it first emerged on the modern stage to its multifarious present-day manifestations. By combining an historical focus with the latest contemporary research from an international range of perspectives and authors, this collection marks an important moment in Meyerhold studies as well as offering a new assessment of his relation to today's theatre. Making its dynamic blend of research is presented in five sections: Histories enlarges on more conventional subjects like the grotesque and Biomechanics to overlooked topics such as Meyerhold's failed projects and his work in film; Collaborations and Connections extends understandings of Meyerhold's well-known collaborative capacities to consider new cultural influences and lesser-known working relationships; Sources engages with hitherto untapped material in Meyerhold's oeuvre by reproducing and contextualising previously untranslated primary sources on his work; Practitioner Voices offer lively on-the-ground testimony of the contemporary impact of Meyerhold's practice; Meyerhold in New Contexts maps the routes of his practice across continents and examines ways in which his work is being applied in a number of contemporary scenarios such as motion capture, computer-based 3D visualisations and the new normal of digital pedagogy. This is a key resource for students and scholars of European Theatre, acting theory and actor training as well as for those more broadly interested in the socio-political impact of theatre.
