**Survived by One** Robert E. Hanlon, Thomas V Odle, 2013-08-06 On November 8 1985 18 year old Tom Odle brutally murdered his parents and three siblings in the small southern Illinois town of Mount Vernon sending shockwaves throughout the nation The murder of the Odle family remains one of the most horrific family mass murders in U S history Odle was sentenced to death and after seventeen years on death row expected a lethal injection to end his life However Illinois governor George Ryan's moratorium on the death penalty in 2000 and later commutation of all death sentences in 2003 changed Odle's sentence to natural life The commutation of his death sentence was an epiphany for Odle Prior to the commutation of his death sentence Odle lived in denial repressing any feelings about his family and his horrible crime Following the commutation and the removal of the weight of eventual execution associated with his death sentence he was confronted with an unfamiliar reality A future As a result he realized that he needed to understand why he murdered his family He reached out to Dr Robert Hanlon a neuropsychologist who had examined him in the past Dr Hanlon engaged Odle in a therapeutic process of introspection and self reflection which became the basis of their collaboration on this book Hanlon tells a gripping story of Odle's life as an abused child the life experiences that formed his personality and his tragic homicidal escalation to mass murder seamlessly weaving into the narrative Odle's unadorned reflections of his childhood finding a new family on death row and his belief in the powers of redemption As our nation attempts to understand the continual mass murders occurring in the U S *Survived by One* sheds some light on the psychological aspects of why and how such acts of extreme carnage may occur However *Survived by One* offers a never been told perspective from the mass murderer himself as he searches for the answers concurrently being asked by the nation and the world
