Boyte, 2021-04-30 In the face of authoritarian divisive trends and multiplying crises when politics as usual is stymied Awakening Democracy through Public Work shows it is possible to build foundations for a democratic awakening grounded in deep American traditions of a citizen centered commonwealth Awakening Democracy through Public Work begins with the story of Public Achievement a youth civic education and empowerment initiative with roots in the civil rights movement It describes Public Achievement's first home in St Bernard's a low income Catholic elementary school in St Paul Minnesota and how the program spread across the country and then abroad giving birth to the larger concept of public work In Public Achievement young people practice citizen politics as they tackle issues ranging from bullying racism and sexual harassment to playground improvements curriculum changes and better school lunches They develop everyday political skills for working across differences and making constructive change Such citizen politics more like jazz than a set piece of music involves the interplay and negotiation of diverse interests and views sometimes contentious sometimes harmonious Public Achievement highlights young people's roles as co creators builders of schools communities and democratic society They are not citizens in waiting but active citizens who do public work Awakening Democracy through Public Work also describes how public work can find expression in many kinds of work from education and health to business and government It is relevant across the sweep of society People have experimented with the idea of public work in hundreds of settings in thirty countries from Northern Ireland and Poland to Ghana and Japan In Burundi it birthed a national initiative to rework relations between villagers and police In South Africa it helped people in poor communities to see themselves as problem solvers rather than

simply consumers of government services In the US at Denison University public work is being integrated into dorm life At Maxfield School in St Paul it is transforming special education In rural Missouri it led to the emPowerU initiative of the Heartland Foundation encouraging thousands of young people to stay in the region In Eau Claire Wisconsin it generated Clear Vision a program providing government support for citizen led community improvements Public work has expanded into the idea of citizen professionals working with other citizens not on them or for them It has also generated the idea of civic science in which scientists see themselves as citizens and science as a resource for civic empowerment Awakening Democracy through Public Work shows that we can free the productive powers of people to work across lines and differences to build a better society and create grounded hope for the future
