

APA Formatting and Style Guide

APA (American Psychological Association) style is most commonly used to cite sources within the social sciences. This resource, revised according to the 6th edition, second printing of the APA manual, offers examples for the general format of APA **research papers, in-text citations, endnotes/footnotes, and the reference page**. For more information, please consult the Publication Manual of the American Psychological Association, (6th ed., 2nd printing).

General APA Guidelines

Your essay should be

- typed and double-spaced
- on standard-sized paper (8.5" x 11"),
- with 1" margins on all sides.
- You should use a clear font that is highly readable.
APA recommends using 12 pt. Times New Roman font.

Include a **page header** (also known as the "**running head**") at the top of every page. To create a **page header/running head**, insert page numbers flush right. Then type "TITLE OF YOUR PAPER" in the header flush left using all capital letters. The **running head** is a shortened version of your paper's title and cannot exceed 50 characters including spacing and punctuation.

Major Paper Sections

There should be **four** major sections: the

Title Page,

Abstract,

Main Body

References.

May also have an appendix section.

Title Page

The title page should contain

- the **title** of the paper,
- the **author's name**, and the **institutional affiliation**.
- Include the page header (described above) flush left with the page number flush right at the top of the page.
