WALNECK'S CLASSIC CYCLE TRADER, AUGUST 2004 Causey Enterprises, LLC, *The Harley-Davidson Motor Company* David K. Wright, 2002 Harley Davidson: A name that brings a smile to anyone who loves American motorcycles. For 100 years that name has been synonymous with freedom, open roads, raw power and good times and the Milwaukee motorcycles have spawned legions of fans world wide who are fiercely loyal to their V-twin powered machines and the company that built them. Since 1903 the Harley Davidson Motor Company has endured wars, recessions, depressions, strikes, buyouts and buybacks, foreign competition and ever changing markets. It has survived all that and thrived. Harley is now stronger than it's ever been and shows no sign of slowing down. In the fourth edition of this classic history, author David K. Wright has revised and expanded the book to include all 100 years of the company's history. He covers the motorcycles, the men who built them, the owners, the dealers, the racers and the entire Harley scene from celebrity owners and police bikes to one percenters, from restorers to custom bike builders. Wright's extensive research, candid style and deep appreciation for Harley Davidson's history combine to make this an important part of every Harley rider's library. This is the complete story of Harley Davidson, the American motorcycle of the 20th Century and now of the 21st Century as well. Every H-D fan from first time rider to grizzled veteran will want this fascinating, all too true story now offered proudly without Harley Davidson approval or endorsement. Book jacket. The Grenfell Tower Fire Tony Sullivan,2025-04-28 Examines the systemic failures and deregulation that led to the Grenfell Tower fire tragedy from a firefighter s perspective In the early hours of 14th June 2017 a fire began in a kitchen on the fourth floor of a twenty four storey block of flats in West London A fire that should have been contained within the original compartment ripped up the outside of the building within minutes Procedures and systems that had worked for decades failed resulting in the loss of seventy two lives Yet this was not the first time a breakdown of compartmentation had caused a loss of life Just eight years earlier a fire at Lakanal House in South London had claimed the lives of six people How then could this happen again Nor was it just one failure as panels inadequate fire stopping construction of the windows failure of fire doors and the smoke ventilation system all contributed to the rapid fire spread This book gives a firefighter s perspective of the deregulation that caused the tragedy and describes what firefighters were confronted with that June night in 2017 It places that deregulation chronologically alongside a career that spanned three decades including nine years in the training department of the London Fire Brigade It proposes the causes are far deeper and wider than many think A systemic deterioration of standards in testing of materials building control maintenance inspections fire safety and enforcement
