Devolution and the UK Economy David Bailey,Leslie Budd,2016-02-24 The Scottish Referendum in September 2014 had significant and far reaching consequences for the political settlement of the United Kingdom The pressure for more fiscal devolution and other economic powers in the devolved nations has increased demands for greater economic decentralisation in the regions and sub regions of England This edited collection constructs an analytical narrative that draws on the evidence of the Scottish experience and

expert testimony from the Smith Commission and other policy advisors Drawing on ideas from fiscal federalism and agglomeration economics the contributors examine the reorganisation and restructuring of economic territories within the UK What is apparent in the UK experience of asymmetrical devolution is that many of the complex issues surrounding decentralised economic governance are not going to be addressed through simple expedients The pertinent question is what should be the appropriate institutional logics and formal policy bailiwicks underpinning a new constitutional settlement In other words what new governmental powers and accompanying forms of governance are needed to achieve a more economically and spatially balanced economy Practical Farmer ,1918 **The Publishers' Circular and Booksellers' Record** ,1915
