Foolishness to Gentiles Michael L. Budde, 2022-01-06 What happens to the Gospel when you put other loyalties into positions of power in Christian life and practice You get deformations distortions and caricatures of Christianity killing in the name of love defense of worldwide systems of domination idolization of the nation instead of the membership in the global body of Christ and baptism of exploitative and destructive economic ideologies You get much of what world sees as contemporary Christianity in other words Too often however the inadequacies of contemporary Christian life especially in the United States are seen as separate issues in need of improvement or reform Foolishness to Gentiles invites readers to see the pathologies of the churches not as a series of disconnected problems but predictable outcomes of deep defects of Christian formation commitments and theology Having mortgaged so much of the integrity of the Gospel in the pursuit of imperial and national citizenship and having allowed the powers of race and capital to divide the unity of the church Foolishness to Gentiles calls Christians into deeper reflection repentance and redirection In a series of essays new and previously unpublished previously unpublished in English and published previously in specialized venues Foolishness to Gentiles opens doors to deeper theological and socio political reflection and some guideposts for more adequate practices of Christian discipleship in a variety of contexts and circumstances

When Fracking Comes to Town Sabina E. Deitrick, Ilia Murtazashvili, 2022-01-15
When Fracking Comes to Town traces the response of local communities to the shale gas revolution Rather than cast communities as powerless to respond to oil and gas companies and their landmen it shows that communities have adapted their local rules and regulations to meet the novel challenges accompanying unconventional gas extraction through fracking The multidisciplinary perspectives of this volume's essays tie together insights from planners legal scholars political scientists and economists What emerges is a more nuanced perspective of shale gas development and its impacts on municipalities and

residents Unlike many political debates that cast fracking in black and white terms this book's contributors embrace the complexity of local responses to fracking States adapted legal institutions to meet the new challenges posed by this energy extraction process while under resourced municipal officials and local planning offices found creative ways to alleviate pressure on local infrastructure and reduce harmful effects of fracking on the environment The essays in When Fracking Comes to Town tell a story of community resilience with the rise and decline of shale gas production Contributors Ennio Piano Ann M Eisenberg Pamela A Mischen Joseph T Palka Jr Adelyn Hall Carla Chifos Teresa C rdova Rebecca Matsco Anna C Osland Carolyn G Loh Gavin Roberts Sandeep Kumar Rangaraju Frederick Tannery Larry McCarthy Erik R Pages Mark C White Martin Romitti Nicholas G McClure Ion Simonides Jeremy G Weber Max Harleman Heidi Gorovitz Robertson
