popular music artists made as the 1960s turned toward a new decade but unlike many of their peers whose music grew more soft and subdued as they embraced traditional styles the music and attitude of the Stones only grew harder and more menacing and their status as representatives of the dark underside of the 60s rock counterculture assumed new solidity For the Rolling Stones the 1960s ended and the 1970s began with the release of this album in 1968      *Contemporary Business 2010 Update* Louis E.
