The aim of *Blindspot* is to explain the science in plain enough language to help well intentioned people achieve that alignment. By gaining awareness we can adapt beliefs and behavior and outsmart the machine in our heads so we can be fairer to those around us. Venturing into this book is an invitation to understand our own minds. Brilliant, authoritative and utterly accessible, *Blindspot* is a book that will challenge and change readers for years to come. Praise for *Blindspot*: Conversational, easy to read and best of all it has the potential at least to change the way you think about yourself. Leonard Mlodinow, *The New York Review of Books*. Banaji and Greenwald deserve a major award for writing such a lively and engaging book that conveys an important message. Mental processes that we are not aware of can affect what we think and what we do. *Blindspot* is one of the most illuminating books ever written on this topic. Elizabeth F. Loftus, Ph.D., distinguished professor, University of California, Irvine; past president, Association for Psychological Science; author of *Eyewitness Testimony*.
