of Lamborghini is a pocket sized and wonderfully designed celebration of this most astonishing of supercar manufacturers. With their incredible looks and performance to match Ferruccio Lamborghini's cars have been synonymous with speed and exclusivity for more than 60 years. In *The Story of Lamborghini* every aspect of the legendary brand's success is celebrated from Ferruccio's famous argument with Enzo Ferrari that led to the creation of the company to Lamborghini's position at the peak of jaw dropping design and construction. Lamborghini has produced some of the most sought after cars ever made. From the Miura of the 1960s to the Countach of the 1980s and from the Diablo of the 1990s to the extraordinary Revuelto hypercar of today this famous marque is a by word for outrageous styling and performance. Since 1990 all Lamborghini sports cars have boasted a top speed of over 200mph. Although much of the content is concerned with aspects of technology and production that are of general validity and hence of enduring relevance there is also a chapter on various state of the art production designs. The strong market dynamics in recent years is reflected in numerous new transmission types and major lines of evolution treated include the increasing use of electronics light weight construction and the automation of manual gearboxes. The expertise recorded here mainly springs from joint projects between German and international car and gear manufacturers. *Ski*, 1990-11 *Motor Cycling and Motoring*, 1984 **Torque**, 2008-10 Singapore's best homegrown car magazine with an editorial dream team driving it. We fuel the need for speed. *Audi R8 30 Years of Quattro Awd* Alan Crawford, 2014-03-05 On a small assembly line in Neckarsulm Germany no more than twenty exotic Audi R8 sports cars are built daily. The entire process is overseen by small teams of specialists that oversee every step of production. Every single part is inspected carefully and nothing goes unchecked. It is a level of hand built quality one might expect to find in a Ferrari Enzo or the Vector W8A of the 1980s but almost unheard of from a manufacturer the size of Audi AG. The Turbo Quattro Coupe or Urquattro of the early 1980s was largely assembled by hand much in the same way but Audi has refined the process for the R8 and has introduced one of the most spectacular sports cars ever. I hope this book will provide a better insight into the design development and production of this magnificent automobile. **Popular Mechanics**, 2003-04 Popular Mechanics inspires instructs and influences readers to help them master the modern world.
