Vinod B. Bavishi, 1995 *The Emerald Handbook of African Studies* Kingsley Obi Omeihe, Christian Harrison, 2025-08-25 The

Agriculture and Rural Development Planning H. David Akroyd, 2017-10-24 This book meets the needs of teachers and
students of agriculture and rural development project and programme planning planners employed by governments in
developing countries and by external financing agencies Project planners must understand the aspirations of rural families
and their local leaders the national development and sector planning goals and policies of their governments and the
development goals and policy priorities perceived by external financing agencies in relation to their countries These areas
are not always consistent and trade offs may be required However it is recognised that poor project planning is a major
constraint to the sustainable realization of project and programme objectives and sector goals Illustrated with case studies
and logical framework matrices this book presents well established and relatively new practices followed in the context of
agriculture and rural development project and programme planning Although based on experiences gained in Africa the
issues described are relevant to planning problems encountered in other developing regions of the world It addresses the
main factors which affect the success of planning such as a government s ability to guarantee macro economic stability and
sound sector development policies the shift from top down bureaucratic to bottom up participatory planning approaches and
the roles played by external financing agencies It explains key technical financial economic environmental socio cultural
equity gender and institutional strengthening issues concerning planning in rural areas and reviews the planning tools and
approaches available The procurement of goods and services the disbursement of funds and monitoring and evaluation
requirements are examined in detail **Library of Congress Subject Headings** Library of Congress, 2012 **Daily**
