California in a Time of Excellence James Andrew LaSpina, 2009-02-26 California in a Time of Excellence follows the Golden State's efforts to reform its public school system from 1983 to the present Beginning with progressive curriculum reform initiatives that were launched even before the National Commission on Excellence in Education NCEE issued A Nation at Risk in 1983 James Andrew LaSpina traces these reform efforts through recurring culture wars major clashes of personality and a conflict between the state's tradition of progressive educational policy and a culture of conservatism that colored much of the so called Left Coast's history since the sixties While the battles over curriculum reform in California reflect those at the national level the political world surrounding this conflict reveals the enormous significance of the conflict and its implications for our national future

Petroleum and Public Safety James B. McSwain, 2018-07-06 Throughout the twentieth century cities such as Houston Galveston New Orleans and Mobile grappled with the safety hazards created by oil and gas industries as well as the role municipal governments should play in protecting the public from these threats James B McSwain's Petroleum and Public Safety reveals how officials in these cities created standards based on technical scientific and engineering knowledge to devise politically workable ordinances related to the storage and handling of fuel Each of the cities studied in this volume struggled through protracted debates regarding the regulation of crude petroleum and fuel oil sparked by the famous Spindletop strike of 1901 and the regional oil boom in the decades that followed Municipal governments sought to ensure the safety of their citizens while still reaping lucrative economic benefits from local petroleum industry activities Drawing on historical antecedents such as fire protection engineering the cities of the Gulf South came to adopt voluntary consensual fire codes issued by insurance associations and standards organizations such as the National Board of Fire Underwriters the National Fire Protection Association and the

Southern Standard Building Code Conference The culmination of such efforts was the creation of the International Fire Code an overarching fire protection guide that is widely used in the United States Mexico the Caribbean and Central America In devising ordinances Gulf South officials pursued the politics of risk management as they hammered out strategies to eliminate or mitigate the dangers associated with petroleum industries and to reduce the possible consequences of catastrophic oil explosions and fires Using an array of original sources including newspapers municipal records fire insurance documents and risk management literature McSwain demonstrates that Gulf South cities played a vital role in twentieth century modernization Monthly Index of Russian Accessions Library of Congress. Military History, Office of the Chief of,1966 An Army Afire Beth Bailey,2023-03-15 By the late 1960s what had been widely heralded as the best qualified best trained army in US history was descending into crisis as the Vietnam War raged without end Morale was tanking AWOL rates were rising And in August 1968 a group of Black soldiers seized control of the infamous Long Binh Jail burned buildings and beat a white inmate to death with a shovel The days of same mud same blood were over and a new generation of Black GIs had decisively rejected the slights and institutional racism their forefathers had endured As Black and white soldiers fought in barracks and bars with violence spilling into surrounding towns within the US and in West Germany Vietnam South Korea and Japan army leaders grew convinced that the growing racial crisis undermined the army s ability to defend the nation Acclaimed military historian Beth Bailey shows how the US Army tried to solve that racial crisis in army terms the problem of race Army leaders were surprisingly creative in confronting demands for racial justice even willing to challenge fundamental army principles of discipline order hierarchy and authority Bailey traces a frustrating yet fascinating story as a massive conservative institution came to terms with demands for change *Resources in Education* ,1994-04 *The Advocate* ,2001-08-14 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States Selected Water Resources Abstracts ,1978 **Who's who in American Education** ,1989 *The Annual American Catalogue* ,1894

Struggle for Power the Longest School Strike Leon Bock Kavunetus, Dr,Leon Bock,2011 Two people participating in the same events yet on opposite sides give an engrossing view of a struggle which engulfed a large community in northern Westchester County in New York State It became the longest teachers strike in New York State s history Even though they are personal memoirs both authors try to give as full a picture of the personalities institutions and issues driving the struggle as each experienced it The narrative is in two parts side by side and event by event Both are impressionistic accounts that do

not claim to be objective Dr Leon Bock's account is the viewpoint of a leader of a major institution the Lakeland School District In representing the district he had the heavy responsibility to merge the interests of students and parents faculty the taxpaying community and the Board of Education Mr Thomas Kavunedus a faculty member served as a negotiator for the Lakeland Federation of Teachers He saw his responsibilities as extending to the promotion of learning and teaching environment which would foster excellence The contract with the school district which Mr Kavunedus had participated in promulgating years earlier was a major step in raising teachers out of the dark ages of coffee in the boiler room and hopefully greater professionalism Both authors disagree with one another on many of the issues Most of these issues bedevil our schools today Yet there is enough civility to recognize that partisanship need not be so all engulfing that it demonizes the other side and its objectives No narrative of such a complex event can be totally accurate and objective The authors try to focus on the interpersonal relationships rather than serve as a textbook history of this series of complex events There is no intention to discredit or malign any of the personalities in the narrative rather they are presented as the writers experienced them under conditions of stress
