Sexual Chemistry Lara Marks, 2010-01-01 BIRTH CONTROL CONTRACEPTION FAMILY PLANNING Heralded as the catalyst of the sexual revolution and the solution to global overpopulation the contraceptive pill was one of the twentieth century's most important inventions. It has not only transformed the lives of millions of women but has also pushed the limits of drug monitoring and regulation across the world. This deeply researched new history of the oral contraceptive shows how its development and use have raised crucial questions about the relationship between science, medicine, technology and society. Lara Marks explores the reasons why the pill took so long to be developed and explains why it did not prove to be the social panacea envisioned by its inventors. Unacceptable to the Catholic Church, rejected by countries such as India and Japan, too expensive for women in poor countries, it has more recently been linked to cardiovascular problems. *Forensic Science Review*, 2001 **Federal Register**, 2002-07-09 Official Index to the Times, 1924 *The Papers of Thomas Jefferson, Retirement Series, Volume 21* Thomas Jefferson, 2025-04-29 A definitive new volume of the retirement papers of Thomas Jefferson. The 533 documents in this volume include revealing material on Jefferson's health. He is limited to a liquid diet for weeks due to an abscess under his jaw. Although daily horseback rides take him 3 or 4 to 8 or 10 miles without fatigue, he cannot walk further than his garden. He has lost only one tooth due to age and is glad not to need teeth of porcelain. Due to debility, Jefferson's only serious occupation is the effort to open the University of Virginia. Francis W. Gilmer travels to Great Britain to recruit professors and buy a library and apparatus. Jefferson is determined to hire only faculty of the first grade of science. The Rotunda is still unfinished but fit for use until funds may occur to complete it. Jefferson predicts that a plan to send freed African Americans to Africa will fail. He observes that barbarism is in decline and will in time disappear from the earth. To another correspondent, he defends the principles which have guided his public life but adds that when altered circumstances make changes of principle beneficial, then let such changes take place and the means yield to the end. *Gardeners' Chronicle*, 1921 *The Gardeners' Chronicle*, 1921 *Bookseller's catalogues* Thomas Arthur (bookseller.), 1856 *The Lancet*, 1870 Index Medicus, 2004 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings **Trying Biology** Adam R. Shapiro, 2013-05-21 In *Trying Biology* Adam R. Shapiro convincingly dispels many conventional assumptions about the 1925 Scopes monkey trial. Most view it as an event driven primarily by a conflict between science and religion. Countering this, Shapiro shows the importance of timing: the Scopes trial occurred at a crucial moment in the history of biology textbook publishing, education reform in Tennessee, and progressive school reform across the country. He places the trial in this broad context alongside American Protestant antievolution sentiment and, in doing so, sheds new light on the trial and the historical relationship of science and religion in America. For the first time, we see how religious objections to evolution became a prevailing concern to the American textbook industry even before the Scopes trial began. Shapiro explores both the development of biology textbooks leading up to the trial and the ways in which the textbook

industry created new books and presented them as responses to the trial Today the controversy continues over textbook warning labels making Shapiro s study particularly as it plays out in one of America s most famous trials an original contribution to a timely discussion **Chemist and Druggist** ,1909 **Parliamentary Papers** Great Britain.
