Rethinking Educational Transformation in Zimbabwe Shizha, Edward, 2013-12-07 The role of education in human well being and social development cannot be overestimated After a number of highly commendable policies on education in the first decade of independence the education system in Zimbabwe has taken a tumble that needs both examining and rectifying This volume analyses the challenges facing the education system in Zimbabwe and explores and scrutinises theoretical and practical possibilities for restoring the educational dream that was initiated at independence in 1980 The book is targeted at academics scholars college and university students policy makers and other stakeholders and advocates a multi pronged approach that must involve all stakeholders if educational retransformation reconstruction and restoration are to be achieved The authors provide a range of recommendations for a project that would restore the educational dream in Zimbabwe

International Court Authority Mikael Rask Madsen, 2018-06-28 An innovative interdisciplinary and far reaching examination of the actual reality of international courts International Court Authority challenges fundamental preconceptions about when why and how international courts become important and authoritative actors in national regional and international politics A stellar group of scholars investigate the challenges that international courts face in transforming the

formal legal authority conferred by states into an actual authority in fact that is respected by potential litigants national actors legal communities and publics Alter Helfer and Madsen provide a novel framework for conceptualizing international court authority that focuses on the reactions and practices of these key audiences Eighteen scholars from the disciplines of law political science and sociology apply this framework to study thirteen international courts operating in Africa Latin America and Europe as well as on a global level Together the contributors document and explore important and interesting variations in whether the audiences that interact with international courts around the world embrace or reject the rulings of these judicial institutions Alter Helfer and Madsen s authority framework recognizes that international judges can and often do everything they should do to ensure that their rulings possess the gravitas and stature that national courts enjoy Yet even when imbued with these characteristics the parties to the dispute potential future litigants and the broader set of actors that monitor and respond to the court s activities may fail to acknowledge the rulings as binding or take meaningful steps to modify their behaviour in response to them For both specific judicial institutions and more generally the book documents and explains why most international courts possess de facto authority that is partial variable and highly dependent on a range of different audiences and contexts and thus is highly fragile An introduction situates the book s unique approach to conceptualizing international court authority within theoretical debates about the authority of global institutions International Court Authority also includes critical reflections on the authority framework from legal theorists international relations scholars a philosopher and an anthropologist The book s conclusion questions a number of widely shared assumptions about how social and political contexts facilitate or undermine international courts in developing de facto authority and political power *Becoming Zimbabwe. A History from the Pre-colonial Period to 2008* Brian

Raftopoulos,Alois Mlambo,A. S. Mlambo,2008-12-31 a profoundly new history of Zimbabwe that tears apart all of the old certainties Book Jacket **Recreational Hunting, Conservation and Rural Livelihoods** Barney Dickson,Jonathan Hutton,William A. Adams,2009-01-22 Recreational hunting has long been a controversial issue Is it a threat to biodiversity or can it be a tool for conservation giving value to species and habitats that might otherwise be lost Are the moral objections to hunting for pleasure well founded Does recreational hunting support rural livelihoods in developing countries or are these benefits exaggerated by proponents For the first time this book addresses many of the issues that are fundamental to an understanding of the real role of recreational hunting in conservation and rural development It examines the key issues asks the difficult questions and seeks to present the answers to guide policy Where the answers are not available it highlights gaps in our knowledge and lays out the research agenda for the next decade
