Access to Education and Health among Minority and Indigenous Communities in Kenya: Assessment of Baringo, Trans-Nzoia, Elgeyo Marakwet and Turkana Counties Geoffrey Kerosi, Samuel Olando, 2021-05-06 This study seeks to measure disparity in the enjoyment of health and education rights in Kenya with a focus on minorities and indigenous peoples in Turkana Elgeyo Marakwet Trans Nzoia and Baringo counties It combines primary research with an analysis of Kenyan legislation policies and regulations alongside international standards that promote the rights to health and education In particular it examines Kenya s system of raising revenues especially through taxation and whether resources allocated towards the health and education sector benefit the country s most marginalized communities While recognizing some improvements in recent years Access to Education and Health among Minority and Indigenous Communities in Kenya Assessment of Baringo Trans Nzoia Elgeyo Marakwet and Turkana Counties also highlights the continued challenges that constrain equitable and inclusive provision for marginalized groups in many parts of the country From underspending to infrastructure gaps lack of trained personnel to limited engagement with civil society it identifies a range of problems and concluded with a series of recommendations for local authorities and the national government to improve minority and indigenous access to these basic rights

*House of Commons Debates, Official Report* Canada. Parliament. House of

Commons,1925      **The End of Development** Andrew Brooks,2017-05-15 Why did some countries grow rich while others remained poor Human history unfolded differently across the globe The world is separated in to places of poverty and prosperity Tracing the long arc of human history from hunter gatherer societies to the early twenty first century in an argument grounded in a deep understanding of geography Andrew Brooks rejects popular explanations for the divergence of nations This accessible and illuminating volume shows how the wealth of the West and poverty of the rest stem not from environmental factors or some unique European cultural social or technological qualities but from the expansion of colonialism and the rise of America Brooks puts the case that international inequality was moulded by capitalist development over the last 500 years After the Second World War international aid projects failed to close the gap between developed and developing nations and millions remain impoverished Rather than address the root causes of inequality overseas development assistance exacerbate the problems of an uneven world by imposing crippling debts and destructive neoliberal policies on poor countries But this flawed form of development is now coming to an end as the emerging economies of Asia and Africa begin to assert themselves on the world stage The End of Development provides a compelling account of how human history unfolded differently in varied regions of the world Brooks argues that we must now seize the opportunity afforded by today s changing economic geography to transform attitudes towards inequality and to develop radical new approaches to addressing global poverty as the alternative is to accept that impoverishment is somehow part of the natural order of things      **Official Index to the Times** ,1929      *OECD Environmental Performance Reviews OECD Green Growth Policy Review of Indonesia 2019* OECD,2019-07-10 This is the first Green Growth Policy Review of Indonesia It examines progress towards sustainable development and green growth with a special emphasis on the nexus of land use ecosystems and climate change      *The Lutheran Witness* ,1927      **Palmer's Index to the Times Newspaper** ,1896      *Global Tuberculosis Control* World Health Organization,2010 The World Health Organization WHO has published an annual report on global control of tuberculosis TB every year since 1997 The main purpose of the report is to provide a comprehensive and up to date assessment of the TB epidemic and progress made in TB care and control at global regional and country levels This fifteenth annual report contains more up to date information than any previous report in the series following earlier data collection and the completion of the production cycle within a calendar year This report includes the same wealth of information as previous reports in the series but three new features are worth highlighting First the data are more up to date than those included in previous reports Data up to and including 2009 are presented for almost all key indicators financial data extend to 2011 Second results from several analyses undertaken for the first time in 2010 are included Examples are i for each of the 22 high burden countries HBCs trends in rates of TB incidence and mortality since 1990 combined with projections of whether the target of halving the 1990 mortality rate by 2015 will be achieved ii estimates of the lives saved by TB control between 1995 and 2009 and projections of the additional lives that could be saved up to 2015 including separate

estimates for women and children iii assessment of progress in implementing and financing TB care and control against the targets included in a just released and updated version of the Global Plan to Stop TB and iv a new and compelling compilation of data showing the contribution that PP PP M can make to case detection Third country profiles are available for all countries rather than the 22 HBCs only and can be downloaded online at [www.who.int/tb/data](http://www.who.int/tb/data) always drawing on the latest data available in WHO's global TB database Annex 1 explains the methods that were used to produce estimates of disease burden Annex 2 contains summary tables that provide global regional and country specific data for the main indicators of interest Country profiles for all countries are available online at [www.who.int/tb/data](http://www.who.int/tb/data) their content is advertised in Annex 3
