Sustainable Digital Communities Anneli Sundqvist, Gerd Berget, Jan Nolin, Kjell Ivar Skjerdingsstad, 2020-03-19 This volume constitutes the proceedings of the 15th International Conference on Sustainable Digital Communities iConference 2020 held in Borås Sweden in March 2020 The 27 full papers and the 48 short papers presented in this volume were carefully reviewed and selected from 178 submissions They cover topics such as sustainable communities social media information behavior information literacy user experience inclusion education public libraries archives and records future of work open data scientometrics AI and machine learning methodological innovation **Halvorsen: Sharing Knowledge, Transforming Societi**, 2023-01-10 In June 2016 the Norwegian Programme for Capacity Development in Higher Education and Research for Development Norhed hosted a conference on the theme of knowledge for development in an attempt to shift the focus of the programme towards its academic content This book follows up on that event The conference highlighted the usefulness of presenting the value of Norhed's different projects to the world showing how they improve knowledge and expand access to it through co-operation A wish for more meta-knowledge was also expressed and this gives rise to the following questions Is this way of co-operating contributing to the growth of independent post-colonial knowledge production in the South based on analyses of local data and experiences in ways that are relevant to our shared future Does the growth of academic independence as well as greater equality and the ability to develop theories different to those imposed by the better-off parts of the world give rise to deeper understandings and better explanations Does it at least spread the ability to translate existing methodologies in ways that add meaning to observations of local context and data and thus enhance the relevance and influence of the academic profession locally and internationally This book in its varied contributions does not provide definite answers to these questions but it does show that Norhed is a step in the right direction Norhed is an attempt to fund collaboration within and between higher education institutions We know that both the uniqueness of this programme and ideas of how to better utilise the learning and experience emerging from it call for more elaboration and broader dissemination before we can offer further guidance on how to do things better This book is a first attempt *Emergency Chronicles* Gyan Prakash, 2021-07-06 The gripping story of an explosive turning point in the history of modern India On the night of June 25 1975 Indira Gandhi declared a state of emergency in India suspending constitutional rights and rounding up her political opponents in midnight raids across the country In the twenty-one harrowing months that followed her regime unleashed a brutal campaign of coercion and intimidation arresting and torturing people by the tens of thousands razing slums and imposing compulsory sterilization on the poor *Emergency Chronicles* provides the first comprehensive account of this understudied episode in India's modern history Gyan Prakash strips away the comfortable myth that the Emergency was an isolated event brought on solely by Gandhi's desire to cling to power arguing that it was as much the product of Indian democracy's troubled relationship with popular politics Drawing on archival records private papers and letters published

sources film and literary materials and interviews with victims and perpetrators Prakash traces the Emergency's origins to the moment of India's independence in 1947 revealing how the unfulfilled promise of democratic transformation upset the fine balance between state power and civil rights He vividly depicts the unfolding of a political crisis that culminated in widespread popular unrest which Gandhi sought to crush by paradoxically using the law to suspend lawful rights Her failure to preserve the existing political order had lasting and unforeseen repercussions opening the door for caste politics and Hindu nationalism Placing the Emergency within the broader global history of democracy this gripping book offers invaluable lessons for us today as the world once again confronts the dangers of rising authoritarianism and populist nationalism

University Community Engagement and Lifelong Learning Julia Preece,2017-07-13 This

book offers a conceptual re think of how university community engagement functions as a lifelong learning resource for communities While having a specific focus on the South African context it has important implications for other universities

which are concerned with their communities and makes a compelling argument for the university as a public good in spite of current trends towards marketization and commodification of higher education The book draws on a theoretical framework of capabilities asset based community development and the adult learning concept of dialogue to propose a model whereby the boundary walls of the university become metaphorically porous so that community members feel free to interact with the university as equal members of society A historical outline of African universities is provided as well as an exploration of the evolution of terms for community engagement service learning and learning cities and an examination of the policy and practice implications for the ideological model of a porous university
