Fossil Fuels, Oil Companies, and Indigenous Peoples Tobias Haller, 2007. Fossil Fuels, Oil Companies and Indigenous Peoples is a study of oil production that focuses on the places from which oil is extracted and on the problems both environmental and human created in those places. Global public awareness of the devastating impact of oil extraction on local communities has grown considerably in recent years due in large part to Ken Saro Wiwa's work on behalf of the Ogoni in south eastern Nigeria and his death in 1995 at the hands of Nigeria's military dictatorship. This volume consists of eight case studies, all of them examining these questions: What can indigenous people do when faced with the destruction of their natural and social habitats? And how do oil companies respond to the various forms of local and indigenous resistance to their activities? The eight case studies deal with oil producing regions in Alaska, Ecuador, Venezuela, Peru, Colombia, Nigeria, Papua New Guinea and West Siberia and encompass 18 indigenous population groups.

Project Management and BIM for Sustainable Modern Cities Mohamed Shehata, Fernanda Rodrigues, 2018-10-30. This volume presents innovative work on innovative methods, tools and practices aimed at supporting the transition of Asian and Middle Eastern cities and regions towards a more smart and sustainable dimension. The role of the built and urban environment are becoming more pronounced in Asia and the Middle East as the regions continue to experience rapid increase in population and urbanisation which have only led to an increase in environmental degradation but also rise in energy consumption and emissions. Individual chapters cover timely topics such as sustainable infrastructure, transportation, renewable energy, water and methods supporting an innovative and sustainable development of urban areas. Real world examples are presented to highlight recent developments and advancements in design, construction and transportation infrastructures. The volume is based on the best contributions to the 2nd GeoMEast International Congress and Exhibition on Sustainable Civil Infrastructures, Egypt 2018. The official international congress of the Soil Structure Interaction Group in Egypt, SSIGE.
