Stakeholder Perspectives on World Heritage and Development in Africa Pascall Taruvinga, 2022-08-25 Stakeholder Perspectives on World Heritage and Development in Africa argues that World Heritage Sites WHS across the African continent should adopt practical innovative creative and alternative management approaches that bring greater socio economic benefits to society whilst protecting their Outstanding Universal Value Drawing on empirical evidence gathered in conversation with stakeholders at WHS across Africa the book explores the challenges involved in implementing conservation and socio economic development as a stakeholder driven process Demonstrating that heritage can no longer be viewed as totally separate from its socio economic context Pascall argues that decisions about the management of heritage need to make sense at the local level if they are to be supported by stakeholders As the book shows heritage is still viewed and managed through systems approaches and strategies inherited from the colonial period despite the increasing availability of inclusive governance systems Stakeholders offer alternative creative and innovative approaches that capitalize on the potential of World Heritage to contribute to socio economic development whilst ensuring that its credibility and integrity are maintained Stakeholder Perspectives on World Heritage and Development in Africa offers unique insights into local perspectives on World Heritage and development in Africa The book will be essential reading for academics students development partners and practitioners around the world who are interested in museums and heritage conservation development and the African continent Also the book will be useful in the preparation of nomination dossiers management plans development plans and in disaster risk management at WHS

Why We Kill Karl Kemp, 2024-03-02 Why do so many South Africans prefer taking the law into their own hands to relying on the police Why are those who do so often cheered or sympathised with Of the unprecedented 27 000 recorded murders in South Africa in 2022 at least 1 894 or 7 per cent were attributed to mob justice and vigilantism more than double the number from five years before In the first nine months of 2023 a further 1 472 mob justice deaths had already been registered Mob justice is nothing new but in recent years it has taken on an undeniably desperate furious edge From the breathtakingly violent Zandspruit massacre in May 2021 to the killings during the July unrest two months later to the march of Operation Dudula across the nation in 2022 vigilantism and the condoning of it has never before captured the zeitgeist of South Africa so sharply What has changed in the past few years and what does it augur for the future Following three recent cases of mob justice from the hellish metropolitan townships of Gauteng to the far flung bushveld of northern Limpopo and drawing on extensive research and interviews Why We Kill explores the roots realities and consequences of South Africa s current crisis of vigilantism

Rules of Law and Laws of Ruling Prof Dr Julia Eckert, Professor Franz von Benda-Beckmann, Professor Keebet von Benda-Beckmann, 2013-02-28 Offering an anthropological perspective this volume explores the changing relations between law and governance examining how changes in the structure of governance affect

the relative social significance of law within situations of legal pluralism The authors argue that there has been a re regulation rather than a de regulation propagated by a plurality of regulative authorities and this re regulation is accompanied by an increasing ideological dominance of rights talk and juridification of conflict Drawing on insights into such processes this volume explores the extent to which law is used both as a constitutive legitimation of governance and as the medium through which governance processes take place Highlighting some of the paradoxes and the unintended consequences of these regulating processes and the ensuing dynamics Rules of Law and Laws of Ruling will be a valuable resource for researchers and students working in the areas of legal anthropology and governance

Debates of the National Council of Provinces (Hansard) South Africa Parliament (1994-). National Council of Provinces,2002

Child Rights and International Discrimination Law Marit Skivenes,Karl Søvig,2019-02-22 Societies and states are at a crossroad in how children are treated and how their rights are respected and protected Children s new position and their strong rights create tensions and challenge the traditional relationships between family and the state The United Nations Convention on the Rights of the Child was adopted unanimously by the General Assembly of the United Nations in 1989 and came into force in 1990 Article 2 places states under an obligation to accord primacy to the best interests of the child in all actions concerning children and to ensure and regulate child protection This book offers a comparative and critical analysis of the implementation of Article 2 of the United Nations Convention on the Rights of the Child In order to examine how Article 2 is being implemented it is essential to have a sound understanding of the obligations it imposes The opening chapters will explore the precise content of these obligations in terms of the legislative history of the text its underlying philosophy its amplification by the United Nations Committee on the Rights of the Child and subsequent authoritative interpretations of it by courts around the world The book will then drill down into the conceptual and theoretical challenges posed by the very nature of the obligations and will offer in depth exploration of the long running rights v welfare debate that has always presented something of a challenge in giving effect to children s rights Contributors are leading academics in the children s rights field drawn from a wide range of countries and jurisdictions worldwide including those with common law civilian and mixed traditions Disciplines represented in the book include law psychology political science childhood studies social work and anthropology By drawing together the various facets of Article 2 and analysing it from a range of perspectives the volume provides a coherent and comprehensive inter disciplinary analysis on discrimination and the rights of the child

Youth In South Africa Ariane De Lannoy,Malose Langa,2021-05-05 South Africa is characterised by a youthful population and the challenges and possibilities that characterise the young generation are both warning signs and beacons of hope for a nation founded on social justice Youth in South Africa Agency in visibility and national development takes stock of the nation s development as it affects young people Authors offer both personal and professional insights into the ways in which the youth navigate their own pathways to adulthood These include formal and informal engagements with

politics as well as protest unemployment entrepreneurship education religion experiences with sexuality and violence and a multitude of other life experiences Contributors paint a picture of the initiative agency and resilience of the youth as well as the challenges before them Authors also identify the state of wait-hood faced by those unable to make the transition out of youth into full adulthood as a result of their socio economic circumstances and political context By engaging these experiences and insights and primarily informed by the inputs of young people the authors highlight the limitations of existing youth policies and frameworks The case is made for policy instruments to be informed by the lived experiences of the youth as they navigate a complex macrosocial environment and by the messages the youth communicate about the limitations of current approaches

Framing the Race in South Africa Karen E. Ferree, 2010-11-15 Post apartheid South African elections have borne an unmistakable racial imprint Africans vote for one set of parties whites support a different set of parties and with few exceptions there is no crossover voting between groups These voting tendencies have solidified the dominance of the ruling African National Congress ANC over South African politics and turned South African elections into racial censuses This book explores the political sources of these outcomes It argues that although the beginnings of these patterns lie in South Africa's past in the effects apartheid had on voters' beliefs about race and destiny and the reputations parties forged during this period the endurance of the census reflects the ruling party's ability to use the powers of office to prevent the opposition from evolving away from its apartheid era party label By keeping key opposition parties white the ANC has rendered them powerless solidifying its hold on power in spite of an increasingly restive and dissatisfied electorate

Broke and Broken Lucas Ledwaba, Leon Sadiki, 2017-04-25 In 1889 a gold rush broke out on the Witwatersrand changing South Africa's history forever More than 130 years later the mining industry is still one of the biggest drivers of the economy but at the expense of those who work underground Broke victims of the shameful legacy of gold mining The book seeks to say the names of the mineworkers who have built this country's economy because their own stories and their own spirits need to be magnified The precious stone they spent most of their lives digging brought no shine to their lives only pain tears and death

Senate, 1970 *Early Detection and Intervention in Audiology* Katijah Khoza-Shangase, Amisha Kanji, 2021-02-01 A textbook with case studies for audiologists and speech pathologists to make recommendations for early detection and intervention of hearing impairments in the South African context Early hearing detection and intervention EHDI is the gold standard for any practicing audiologist and for families of infants and children with hearing impairment EHDI programs aim to identify diagnose and provide intervention to children with hearing impairment from as early as six months old as well as those at risk for hearing impairment to ensure they develop and achieve to their potential Yet EHDI remains a significant challenge for Africa and various initiatives are in place to address this gap in transferring policy into practice within the southern African context The diversity of factors in the southern African context presents unique challenges to teaching and research in this field which has prompted this book

project The South African government's heightened focus on increasing access to health care which includes ongoing Early Childhood Development ECD programs make this an opportune time for establishing and documenting evidence based research for current undergraduate and postgraduate students Early Detection and Intervention in Audiology An African Perspective aims to address this opportunity Grounded in an African context with detailed case studies this book provides rich content that pays careful attention to contextual relevance and contextual responsiveness to both identification and intervention in hearing impairment With diverse contributions from experts in local and international contexts but always with an African perspective this textbook will be an invaluable resource for students researchers and practitioners
