Can Themba Sipiwo Mahala, 2022-03-30 Mahala's biography gives insight into the life and writing of Can Themba, 1924-1967, an iconic figure of the South African literary world and Drum journalist who died in exile. This rich and absorbing biography of Can Themba, iconic Drum era journalist and writer, is the definitive history of a larger-than-life man who died too young. Sipiwo Mahala's intensive and often fresh research features unprecedented archival access and interviews with Themba's surviving colleagues and family. Mahala's biography takes a critical historical approach to Themba's life and writing, giving a picture of the whole man from his early beginnings in Marabastad to his sombre end in exile in Swaziland. The better-known elements of his life—his political views, passion for teaching and mentoring, family life, and his drinking—are woven together with an examination of his literary influences and the impact of his own writing, especially his famous short story *The Suit* on modern African writers. In turn, Mahala, a master storyteller, deftly follows the threads of Themba's dynamic life, showcasing his intellectual acumen, scholarly aptitude, and wit along with his flaws, contradictions, and heartbreaks against a backdrop of the sparkle and pathos of Sophiatown of the 1950s. Can Themba's successes and failures, as well as his triumphs and tribulations, reverberate on the pages of this long-awaited biography. The result is an authoritative and entertaining account of an often misunderstood figure in South Africa's literary canon.

Writing the Ancestral River Jacklyn Cock, 2018-03-01 Writing the Ancestral River is an illuminating and unusual biography of the Kowie River in the Eastern Cape This tidal river runs through the centre of what used to be called the Zuurveld a formative meeting ground of different peoples who have shaped our history Khoikhoi herders Xhosa pastoralists Dutch trekboers and British settlers Their direct descendants continue to live in the area and interact in ways that have been decisively shaped by their shared history

Besides being a social history this is also a natural history of the river and its catchment area where dinosaurs once roamed and cycads still grow As the book shows the natural world of the Kowie has felt the effects of human settlement most strikingly through the establishment of a harbour at the mouth of the river in the 19th century and the development of a marina in the late 20th century Both projects have had a decisive and deleterious impact on the Kowie People are increasingly reconnecting with nature and justice through rivers Acknowledging the past and the inter generational racialised privileges damages and denials it established and perpetuates is necessary for any shared future By focusing on this little river the book raises larger questions about colonialism capitalism development and ecology and asks us to consider the connections between social and environmental injustice
