Social Studies for Young Children Gayle Mindes, 2013-11-01 Social studies is at the heart of content in education and takes on society's best hopes for helping children become good citizens and winners in the global economy. In its comprehensive scope, *Social Studies for Young Children: Preschool and Primary Curriculum Anchor* fulfills the promise of social studies as an integrator of the knowledge and experiences of young children. Filled with strategies, activities, and resources, this book helps teachers develop a holistic, culturally relevant approach to social studies and social learning. It surveys the relevant state and national standards and offers essential guidance on how to integrate them into the curriculum while at the same time looking beyond the tests to foster young social scientists' development into critical thinkers and lifelong learners. Special features include children's literature to foster social studies understanding, digital media for teaching and learning, emphasis on cross-disciplinary synthesis. Handbook of Social and Emotional Learning Joseph A. Durlak, Celene E. Domitrovich, Roger P. Weissberg, Thomas P. Gullotta, 2016-10-26 The burgeoning multidisciplinary field of social and emotional learning (SEL) now has a comprehensive and definitive handbook covering all aspects of research, practice, and policy. The prominent editors and contributors describe the state of the art, intervention and prevention programs designed to build students' skills for managing emotions, showing concern for others, making responsible decisions, and forming positive relationships. Conceptual and scientific underpinnings of SEL are explored, and its relationship to children's and adolescents' academic success and mental health is examined. Issues in implementing and assessing SEL programs in diverse educational settings are analyzed in depth, including the roles of school and district-level leadership, teacher training, and school-family partnerships. **Critical Race Theory and Classroom Practice** Daniella Ann Cook, Nathaniel Bryan, 2024-05-03 This edited book shows how critical race theory (CRT) can shape teacher practices in ways that improve educational outcomes for all children, especially those most marginalized in PreK-20 classrooms. The volume bridges the gap between the theoretical foundations of critical race theory and its application in formal and informal learning environments. To promote an active and interdisciplinary engagement of critical race praxis, it illuminates the pedagogical possibilities of using CRT while explicitly addressing grade-span specific content area standards and skills. Each chapter explores how educators use a critical race theory lens to deepen student learning, teach honestly about racism and white supremacy, and actively prepare learners to equitably participate in a multiracial democracy. Written for pre- and in-service teachers, teacher educators, and anti-racist community stakeholders, the text addresses the applicability of CRT as a pedagogical practice for PreK-20 educators seeking to meaningfully combat intersectional racial injustice and to create a more just democracy. This book is necessary reading for educators and courses in Educational Foundations, Anti-Racist Education, Social Justice Education, Curriculum Studies, Educational Leadership, and Multicultural Education. Exemplary Elementary Social Studies Sherry L. Field, Jeff Passe, Andrea S. Libresco, Janet Alleman, 2014-04-01 In many elementary classrooms, social studies has

taken a back seat to English Language Arts and Mathematics in the wake of No Child Left Behind and Race to the Top This volume is not another hand wringing lament On the contrary the elementary educators who have contributed to this volume have a positive set of stories to tell about how social studies can play a central role in the elementary classroom how teachers can integrate social studies knowledge and skills throughout the school day and how this learning can carry over into children s homes and communities The seven case studies in this book one at each elementary grade level highlight exemplary teachers in whose classrooms social studies is alive and well in this age of accountability At the end of each case study each teacher provides advice for elementary teachers of social studies Our hope is that elementary teachers and prospective teachers elementary principals social studies supervisors staff developers and professors of elementary social studies methods who study the stories that we tell can be empowered to return social studies to its rightful place in the curriculum
