*Securitization of the Umbrella Movement in Hong Kong* Cora Y.T. Hui, 2019-07-05 In recent years the city many hoped would help democratize China has instead become a research setting in which to study China s increasing intolerance of dissent Since Hong Kong s return to Chinese sovereignty in 1997 China s treatment of Hong Kong could be divided into three stages non intervention intervention and securitization If the July 1 march in 2003 is a watershed that marked Beijing s change from non intervention to intervention this book suggests that the Umbrella Movement in 2014 is another watershed that marked Beijing s change from intervention to securitization This book is a theoretically driven case study of the Umbrella Movement a massive sit in that paralyzed key business and retail districts for 79 days in Hong Kong in 2014 Many Hongkongers believe that they have the right to a fair election of the chief executive and Beijing s insistence on vetting candidates prompted the outbreak of the Umbrella Movement Drawing insights from the securitization theory and fear appeal literature the book proposes the framework of security appeal It argues that the outbreak of the Umbrella Movement resulted from a premature use of hard repression that is before the government convinced the general public that the Umbrella Movement was a threat The eventual successful securitization entails a general acceptance of the threatening nature of the Umbrella Movement and agreement with its crackdown This book concludes that one of the consequences of the securitization of the Umbrella Movement is Beijing s eventual switch to the policy of patriotocracy a system that allocates power and resources based on one s professed patriotism in lieu of One Country Two Systems The policy implications and theoretical and methodological contributions of this book will be of interest to scholars and students of security studies

Chinese politics and various social science disciplines including political science psychology criminology and sociology
