The Meritocracy Trap Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive

system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people Businessmen, Clientelism, and Authoritarianism in Egypt Safinaz El Tarouty, 2016-04-29 After the ousting of former Egyptian President Hosni Mubarak in February 2011 much debate surrounded the reasons for the former regime's longevity and its collapse Here Safinaz El Tarouty provides an original contribution to the study of authoritarianism in Egypt by focusing on the role of businessmen in authoritarian survival As the regime intensified neoliberal economic reforms that led to social deprivation and frustration among increasing numbers of Egyptian citizens they co-opted businessmen in order to defuse challenges and buttress the regime constructing a new political economy of authoritarianism Extending the existing literature on clientelism El Tarouty creates a typology of regime businessmen relations to describe the multiple mechanisms of co-option in the context of economic liberalization Ultimately though these businessmen proved too narrow a constituency to provide legitimacy to the regime and in fact formed one of the reasons for its collapse *Electronic Commerce* Efraim Turban, David King, Jae Kyu Lee, Ting-Peng Liang, Deborah C. Turban, 2015-01-29 Throughout the book theoretical foundations necessary for understanding Electronic Commerce EC are presented ranging from consumer behavior to the economic theory of competition Furthermore this book presents the most current topics relating to EC as described by a diversified team of experts in a variety of fields including a senior vice president of an e-commerce related company The authors provide website resources numerous exercises and extensive references to supplement the theoretical presentations At the end of each chapter a list of online resources with links to the websites is also provided Additionally extensive vivid examples from large corporations small businesses from different industries and services governments and nonprofit agencies from all over the world make concepts come alive in Electronic Commerce These examples which were collected by both academicians and practitioners show the reader the capabilities of EC its cost and justification and the innovative ways corporations are using EC in their operations In this edition previous editions published by Pearson Prentice Hall the authors bring forth the latest trends in e-commerce including social businesses social networking social collaboration innovations and mobility *The Difference that Gender Makes to International Peace and Security* Sara E. Davies, Nicole George, Jacqui True, 2018-10-29 Fifteen years after the adoption of UN Security Council Resolution 1325 which establishes the Women Peace and Security agenda there is now a need to assess the impacts of gender equality efforts and to understand why and how gender equality reforms have advanced to the extent that they have This book examines how international peace and security is re-envisioned from a gender perspective by mostly focusing on the nuances presented by the Asia Pacific region It argues that despite the diversity of political socio-cultural and economic systems in the Asia Pacific women and girls in the region continue to experience similar forms of insecurities Several countries in the Asia Pacific have demonstrated relative

peace and stability In addition women s leadership and participation in peacebuilding are and continue to be increasingly recognized in the region too However as the chapters in this book demonstrate applying a critical gender analysis allows for the interrogation of veneers of political order which can then mask or normalise everyday gendered insecurities The analysis of country cases such as Myanmar Cambodia and Fiji underscores a rethinking of the political order in the Asia Pacific which leaves existing gender inequalities intact The chapters in this book were originally published in a special issue in the International Feminist Journal of Politics

Banking on Equality Supriti Bezbaruah,2015-03-24 It may well be surprising to say that the world should look to India as a model of gender equality India s banking sector proves the exception with several women reaching the highest positions in India s top banks including the country s largest bank Based on interviews and surveys of bank employees in India s National Capital Region this book looks at what lies behind the media rhetoric and provides a systematic analysis of patterns of and responses to gender inequality in the banking sector in India The book uncovers how gender discrimination still persists in the banking sector albeit in covert forms Through a comparison of nationalized Indian private and foreign banks the book demonstrates how the impact of laws local cultural norms and gendered workplace practices are mediated through different organizational forms in these different types of banks to create varied experiences of gender inequality The book is one of the first books to provide a thorough in depth analysis of women s employment in the Indian banking sector currently an under researched area

State-permeated Capitalism in Large Emerging Economies Andreas Nölke,Tobias ten Brink,Christian May,Simone Claar,2019-08-30 This book systematically analyzes the economic dynamics of large emerging economies from an extended Comparative Capitalisms perspective Coining the phrase state permeated capitalism the authors shift the focus of research from economic policy alone towards the real world of corporate and state behaviour On the basis of four empirical case studies Brazil India China South Africa the main drivers for robust economic growth in these countries from the 2000s until the 2010s are revealed These are found in particular in mutual institutional compatibilities of state permeated capitalism in their large domestic markets and beneficial global economic constellations Differences in their institutional arrangements are explored to explain why China and India have been more economically successful than Brazil and South Africa The authors highlight substantial challenges for the stability of state permeated capitalism and assess the potential future growth sustainability and likely pitfalls for these large emerging economies Opening further avenues for empirical and theoretical research this book raises questions for the future of the global economic order and should appeal to academics graduate students and advanced undergraduates in politics economics economic sociology and development studies It should also prove a worthwhile and provocative read for development practitioners and policy makers

Race Rights Reparations Fernne Brennan,2017-07-14 This book considers institutional racism as a problem that exists within modern societies Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem It is argued here that first there needs to be an acceptance of

its existence then developing the tools needed to deal with it and finally to implement those tools so that institutional racism can be permanently removed from society The book has four themes the first considers the nature of institutional racism the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda The development of a social movement is part of a social discourse which would for example push mentoring as a form of reparations There is a need for more research on the manifestations of institutional racism and this book is part of that discourse It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society This problem has not been addressed through legislation and policies devised to combat racial discrimination Institutional racism needs to be understood as being located in the processes and procedures of societal institutions

Fair Shot Chris Hughes,2018-02-20 deeply felt and cogently argued Hughes makes a powerful case that deserves a respectful hearing The Financial Times Facebook co founder Chris Hughes argues that the best way to fight income inequality is with a radically simple idea a guaranteed income for working people paid for by the one percent The first half of Chris Hughes s life played like a movie reel right out of the American Dream He grew up in a small town in North Carolina His parents were people of modest means but he was accepted into an elite boarding school and then Harvard both on scholarship There he met Mark Zuckerberg and Dustin Moskovitz and became one of the co founders of Facebook In telling his story Hughes demonstrates the powerful role fortune and luck play in today s economy Through the rocket ship rise of Facebook Hughes came to understand how a select few can become ultra wealthy nearly overnight He believes the same forces that made Facebook possible have made it harder for everyone else in America to make ends meet To help people who are struggling Hughes proposes a simple bold solution a guaranteed income for working people including unpaid caregivers and students paid for by the one percent The way Hughes sees it a guaranteed income is the most powerful tool we have to combat poverty and stabilize America s middle class Money cold hard cash with no strings attached gives people freedom dignity and the ability to climb the economic ladder A guaranteed income for working people is the big idea that s missing in the national conversation This book grounded in Hughes s personal experience will start a frank conversation about how we earn in modern America how we can combat income inequality and ultimately how we can give everyone a fair shot

Education Mania Joshua Flapan,2023 Education Mania Is a University The New Doctor is about people who think that a college degree is a real degree In fact the doctorate is doing the goals of the college In many ways the full benefits of a college degree go to the doctorate Like in the majors in the field of engineering psychology and English there are a lot of college grads around the world who face the food stamp line and it is contrary to how the university gets people a job The scandal involves an essay and dissertation That is an approximately five chapter essay Also the book has introductions to explain to the reader how a university degree becomes a new doctor My book explores solutions to subject areas that prove the doctor is the new college The solutions include having college to nothing getting rid of the bus child labor and
