Spaull,Jonathan D. Jansen,2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

Public Law in a Troubled Era Katarzyna Gromek-Broc, 2023-07-14 Public law which examines relations between governments and institutions and individuals has in recent years become deeply disturbed by an erosion of the rule of law notably in some of the world's most professedly democratic nations In this book of edited essays many of the world's leading public lawyers draw on examples from the United Kingdom European States and the European Union EU to explore the alarming tensions unleashed as Europe is rocked by Brexit the war between nations on the EU border and the worldwide phenomenon of populist resistance to globalised forces and liberal democratic aspirations The book is dedicated to Professor Patrick Birkinshaw who until his retirement was Director of the Institute of European Public Law and Professor of Public Law at the University of Hull and widely respected as a leading authority on public law With a focus on public law and European

public law jurisprudence with hugely important global ramifications the contributions continue his work and crucially deal with the new and troubling shape of the law politics relationship The essays examine these developments under four headings Law in a World Turned Upside Down with essays on e g Brexit the denial of human rights and the rule of law in Hungary climate change governance Law and Politics A Shifting Boundary showing how advances in the courts have prompted reaction to curtail judicial review and human rights protection especially evident in the fading mirage of fair trial rights and administration on the EU periphery Law s Promise specifying real achievements in the way of reform and higher levels of security for individuals and New Bearings exploring initiatives and emerging problems including reform of judicial review the European Banking Law digitalization of public administration and institutional interactions with the Chinese 1982 Constitution The book brings together leading university professors public officials and judges all experts in their respective fields All are concerned with a central role for law in the process of governance This unrivalled volume penetrates the contradictions uncertainties and insecurities that plague this topic of worldwide interest and debate and will prove invaluable to practitioners public administrators jurists judges and legal academics everywhere It will also be of interest to political scientists and politicians In its completely original and innovative discussions of the changes taking place at the interface of law and politics and of how law can enhance certainty and reliability in governance this book provides a most detailed and insightful analysis of the new bearings in public law in Europe and worldwide

Routledge Handbook of Global Health Rights Clayton Ó Néill, Charles Foster, Jonathan Herring, John Tingle, 2021-05-30 This book examines the idea of a fundamental entitlement to health and healthcare from a human rights perspective The volume is based on a particular conceptual reasoning that balances critical thinking and pragmatism in the context of a universal right to health Thus the primary focus of the book is the relationship or contrast between rights based discourse jurisprudential arguments and real life healthcare contexts The work sets out the constraints that are imposed on a universal right to health by practical realities such as economic hardship in countries lack of appropriate governance and lack of support for the implementation of this right through appropriate resource allocation It queries the degree to which the existence of this legally enshrined right and its application in instruments such as the International Covenant on Economic Social and Cultural Rights ICESCR and the Universal Declaration of Human Rights UDHR can be more than an ephemeral aspiration but can actually sustain promote and instil good practice It further asks if social reality and the inequalities that present themselves therein impede the implementation of laudable human rights particularly within marginalised communities and cadres of people It deliberates on what states and global bodies do or could do in practical terms to ensure that such rights are moved beyond the aspirational and become attainable and implementable Divided into three parts the first analyses the notion of a universal inalienable right to health care from jurisprudential anthropological legal and ethical perspectives The second part considers the translation of international human rights norms into specific jurisdictional healthcare contexts With a global perspective it

includes countries with very different legal economic and social contexts Finally the third part summarises the lessons learnt and provides a pathway for future action The book will be an invaluable resource for students academics and policymakers working in the areas of health law and policy and international human rights law Textbook of Neuroanesthesia and Neurocritical Care Hemanshu Prabhakar,Zulfiqar Ali,2019-04-30 This two volume book offers a comprehensive guide to anesthetic management and critical care management in neurosurgical and neurological patients This second volume focuses on neurocritical care The book begins with basic information on the principles of neurocritical care Management of various neurological problems such as myasthenia gravis Guillain Barr syndrome epilepsy stroke and many more are discussed in detail Subsequent sections address nursing care physiotherapy and psychological care issues related to brain death and organ donation and common complications observed in neurological patients during their ICS stays Each complication is discussed in detail guiding readers in their clinical practice In turn the book s closing chapters cover e g the role of hypothermia and evidence based practice The book offers a valuable resource for all residents fellows and trainees in the fields of neurointensive care and critical care it will also benefit intensivists and neurocritical care experts
